**Trying to
avoid danger.**

**Not
necessary.**

**Without a
roof.**

**Showing
courage.**

Adding Suffixes to Spell Longer Words

What is a **suffix**?

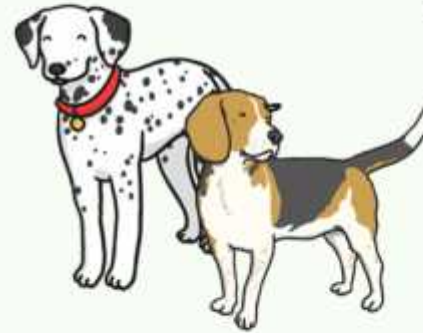

A suffix is something that we add to the **end** of a word that changes its meaning.

Here are some suffixes that you might have met before:

catches

dogs

fast
faster
fastest

pull
pulling
pulled
puller

- ness

is a suffix that turns **adjectives** (words that **describe**) into **nouns** (words that **name**).

Here is an example:

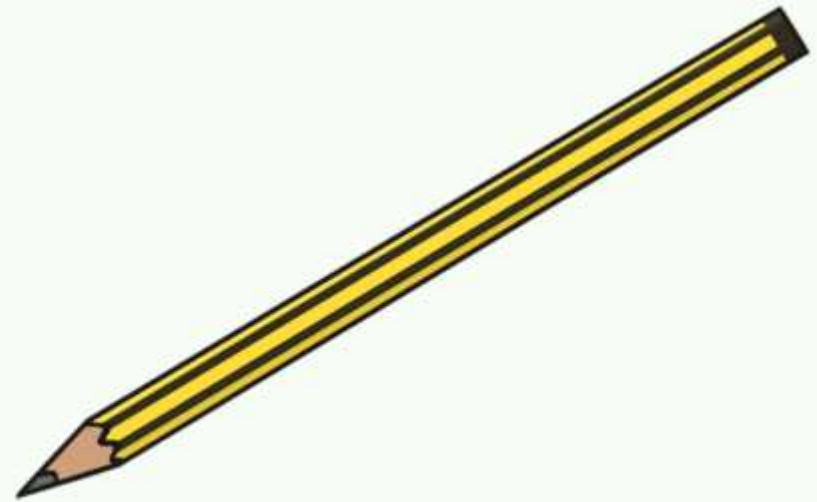

kind	<u>kindness</u>
Charlie was kind to his friend.	Charlie showed kindness to his friend.

- ness

Can you add -ness to these adjectives and use them in a sentence?

- bright
- dark
- sad

- ment

can be added to verbs and adjectives to make a noun.

For example:

enjoy → enjoyment

appoint → appointment

Sometimes adding the suffix **-ment** changes the spelling of the root word.

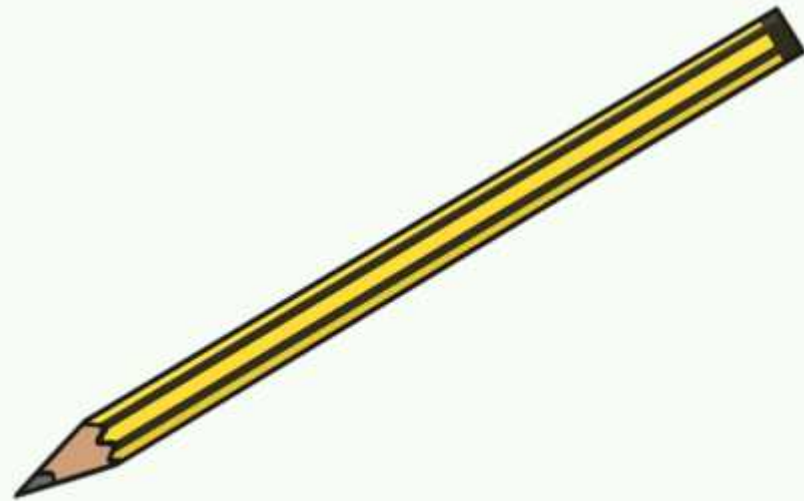

argue → argument

merry → merriment

- ment

Can you add – ment to these adjectives and use them in a sentence?

- achieve
- replace
- amaze

- ful

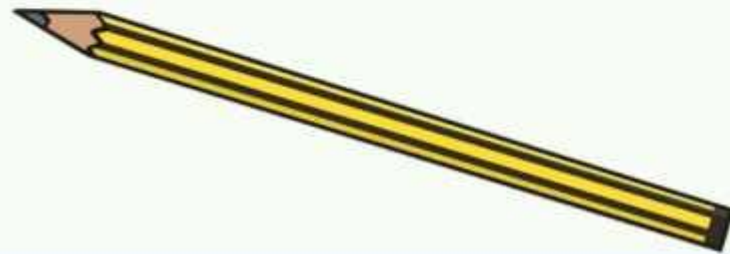

can be added to words to make adjectives.

Think of this suffix as meaning 'full of'.

For example: what is something that is full of beauty?

beautiful

Notice that the 'y' at the end of beauty changes to an 'i' in beautiful.

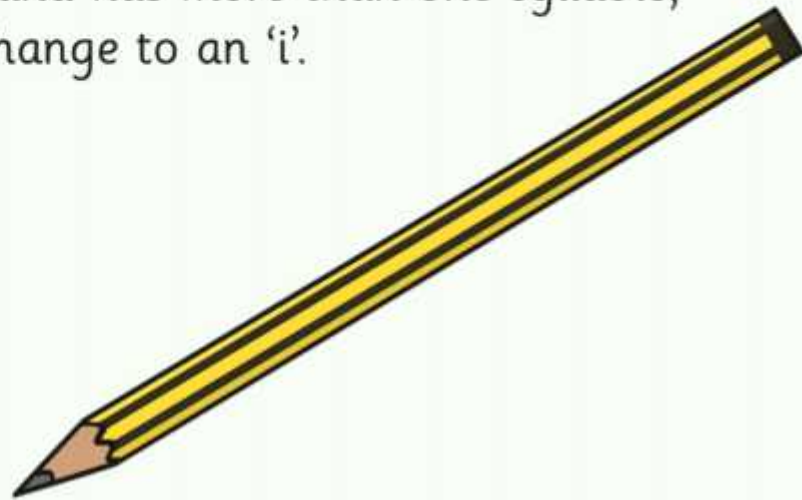

- ful

Can you make these words into adjectives using the -ful suffix?

If the root word ends in a 'y' and has more than one syllable,
the 'y' will change to an 'i'.

- bounty
- resent
- hope

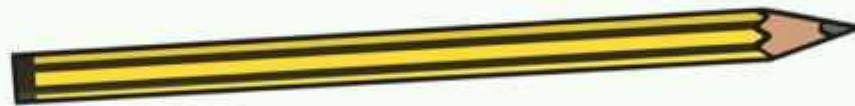

- less

can be added to words to make adjectives.
This suffix tells us what the subject does not have.

For example:

hope	hopeless
Lucy showed hope during a hard time.	When Charlotte lost her new shoes she felt hopeless.

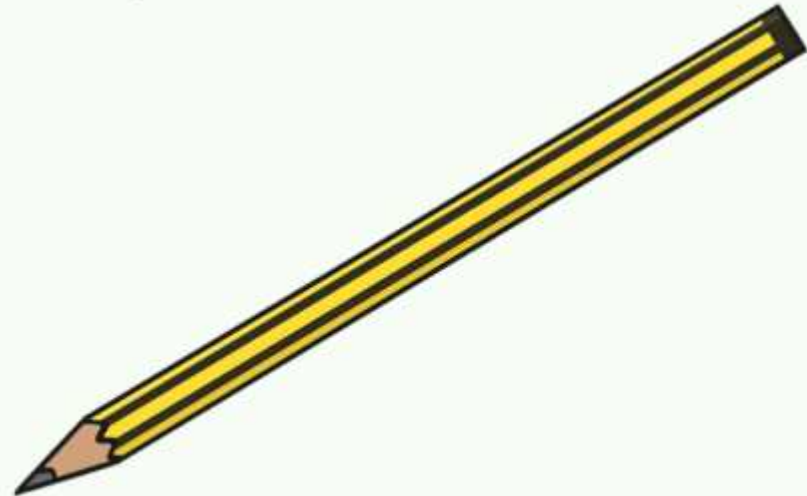

- less

Can you make these words into adjectives using the -less suffix?

If the root word ends in a 'y' and has more than one syllable, the 'y' will change to an 'i'.

- penny
- count
- fault

- **ly**

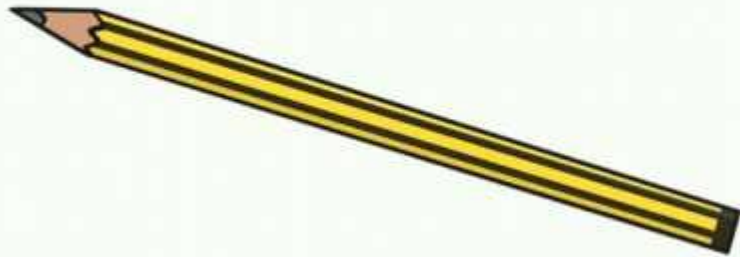

is usually added to words to tell us how or how often something is done.

For example:

Lanty fell over and hurt her knee badly.

Trevor delivers our milk weekly.

Matthew skipped through the playground merrily.

-ly

Can you modify these words using the -ly suffix?

If the root word ends in a 'y' and has more than one syllable, the 'y' will change to an 'i'.

- happy
- quick
- sudden
