

Fact and Opinion

Facts tell us about things that have been proven to be true. They are based on research, observation and measurements.
Facts can not be changed.

Opinions tell us what someone believes. They are based on people's own personal judgements and attitudes. An opinion has no proof and can change from person to person.

'Australia is the smallest continent in the world.'
'Canberra is the capital of Australia.'

'Australia is the best country in the world.'
'Australian beaches are beautiful.'
