

Suggested Writing Activities Following Pirate Ship Sound Story Teacher Notes

There are five packs of suggested activities to support each chapter of the Pirate Ship Sound Story.

This list of suggested writing activities utilises the knowledge and experience the children have of pirate ships and pirate life from the sound stories, ebooks and support activities. Having studied and been immersed in the life onboard a pirate ship, children's writing within the context will be enriched.

These suggested writing activities may be used for summative writing assessment or as everyday writing tasks. There are differentiated degrees of difficulty level for each activity.
