

# Find the Equivalent Fractions

LO: I can write the equivalent fraction.

Fill in the numerator to make the fractions equivalent.

1.  $\frac{1}{5} = \frac{\square}{10}$

2.  $\frac{4}{5} = \frac{\square}{10}$

3.  $\frac{3}{10} = \frac{\square}{20}$

4.  $\frac{7}{10} = \frac{\square}{20}$

5.  $\frac{3}{5} = \frac{\square}{20}$

6.  $\frac{9}{10} = \frac{\square}{40}$

7.  $\frac{2}{5} = \frac{\square}{20}$

8.  $\frac{1}{10} = \frac{\square}{20}$

9.  $\frac{7}{20} = \frac{\square}{40}$

10.  $\frac{3}{20} = \frac{\square}{40}$

11.  $\frac{19}{20} = \frac{\square}{40}$

12.  $\frac{11}{20} = \frac{\square}{40}$
