

Amazon Rainforest Creatures

What's Behind the Binoculars?

Hi there!

My name is Alex and I'm out exploring the Amazon rainforest!

I've got my special binoculars out ready to try to spot all the different creatures that live there.

Can you tell what I can see?

sloth

Thank you so much for all your help!

Aren't the creatures in the Amazon rainforest amazing?

Maybe you could try and find out about some other creatures that live there!
