Ingredients: Water, skim milk, apple (20%), blueberry (12%), pineapple (10%)		
All quantities above are averages.		

Food Nutrition Labels Making Healthy Choices

1. Which product has the most amount of sugar per serving?

2. Which product had the least amount of sodium?

3. Which product has the most amount of saturated fat?

4. Which product has fewer additives?

5. After reading the nutrition labels on both products, which would you choose as a healthier option? Explain why.

Food Nutrition Labels Making Healthy Choices - **Answers**

1. Product A
2. Product B
3. Product A
4. Product B
5. Example answer: I would buy Product B because it is healthier. There are no additives listed on the label, it is less fattening because it has less fat, less saturated fat and less sugar per serving. (Deeper answers might discuss the greater amount of fat and sugar per 100g in Product B, so the comparison would actually be more complicated.)
