# Ratios

Complete this table showing the scaling of ingredients for scones:

| Batch | Flour (kg) | Butter (kg) | Sugar (kg) |
|-------|------------|-------------|------------|
| 1     | 0.225      | 0.05        | 0.025      |
| 2     | 0.45       | 0.1         | 0.05       |
| 3     | 0.675      | 0.15        | 0.075      |
| 5     | 1.125      | 0.25        | 0.125      |
| 8     | 1.8        | 0.4         | 0.2        |
| 10    | 2.25       | 0.5         | 0.25       |
| 12    | 2.7        | 0.6         | 0.3        |
| 25    | 5.625      | 1.25        | 0.625      |
| 30    | 6.75       | 1.5         | 0.75       |

# Ice Cream

Here are the ingredients for banana and blueberry ice cream:

1 lemon

125g mascarpone

6 tbsp icing sugar

12 blueberries

1 banana

I have a packet of 48 blueberries. How much of the other ingredients will I need to make the ice cream using all the blueberries?

4 lemons, 500g mascarpone, 24 tbsp icing sugar and 4 bananas.

1 tablespoon of icing sugar weighs 8g. If I make the recipe with 1 kg of mascarpone, what weight of icing sugar will I need?

48 tbsp = 384g

Create your own recipe question for a partner.

# Sharing Pizzas

4 children share 6 pizzas

2 more children join the group.

Each have the same amount of pizza.

So 3 more pizzas are needed.
