Explain

Using a drawing of a circle, explain the relationship between the circumference, radius and diameter. Use the term π .

The radius is half the diameter or the diameter is twice the radius. The circumference is $\pi \times$ diameter or $2\pi \times$ radius.

Pi

Here is a possible set of measurements:

Diameter (cm)	Circumference (cm)	Circumference/ Diameter
10	31.2	3.120
11	34.3	3.118
12	37.8	3.150
15	46.7	3.113
