## DIRECTIONS

Materials Needed:

Cards  
Student Answer Sheet  
1 Coin for Each Student

Shuffle cards and place face down in a pile.

Pick a card and turn it over.

Flip your coin. If it lands on heads, read and answer the heads question. If it lands on tails, read and answer the tails question. Write A or B on your answer sheet.

\*\*\*BE CAREFUL! Remember that the cards are mixed up and not in numerical order. Be sure to write your answer next to the correct number AND next to heads OR tails, depending on which side of the card you completed. You are NOT answering both questions on the card.

Have some flippin' fun!
