# Statistics: Mountain Climate Line Graphs 

## Aim:

Solve comparison, sum and difference problems using information presented in a line graph.

I can answer questions about data presented in a climate line graph.

## Success Criteria:

I can interpret data in bar charts and line graphs.
I can identify the features of a line graph.
I can answer comparison, sum and difference questions about data presented in a line graph.

## Key/New Words:

Line graph, bar chart, data, axis, continuous data, climate graph.

## Resources: <br> Lesson Pack

## Preparation:

Mega Mountains Bar Chart Handout - as required
Mount Fuji Graph Handout - as required
Mount Everest Graph Handout - as required
Differentiated Mountain Climate Line Graphs
Activity Sheets - one per child
Mountain Rainfall Line Graph Handout - as required
Find My Match Mountain Line Graph Cards

- one per class or group

Prior Learning: It will be helpful if children have experience of interpreting data in bar charts and line graphs.

## Learning Sequence

Mega Mountains Bar Chart Reveal: Referring to the bar chart displayed on the Lesson Presentation or on the
Mega Mountains Bar Chart Handout, the children answer questions about the height in metres of six of the world's

tallest mountains to reveal a hidden picture. | Mount Fuji Climate: Discuss the table of data shown on the Lesson Presentation which shows the average |
| :--- |
| temperature in ${ }^{\circ} \mathrm{C}$ for each month on Mount Fuji in Japan. Ask the children how they would present this data as |
| a graph, explaining their reasoning. Then discuss the next table of data which shows the average temperature and |
| average rainfall for each month on Mount Fuji. Ask the children how they would present both sets of data on the |
| same graph, explaining their reasoning. |

## Masterit

Challengeit: Challenge children to make their own climate graphs for different climates of the world and to write and answer questions based on them. ICTit: Demonstrate to the children how to create climate graphs using spreadsheet software.

## Mountain Climate Line Graphs

I can answer questions about data presented in a climate line graph.

A Graph to Show the Average Temperature and Rainfall on Mount Everest
$\square$ Mount Everest Rainfall ------- Mount Everest Temperature

1) Which month on Mount Everest has the lowest average rainfall?
2) Which month on Mount Everest has 105 mm of average rain?
3) What is the difference in rainfall between April and May?
4) Which month on Mount Everest has the highest average temperature?
5) Which month on Mount Everest has an average temperature of $18^{\circ} \mathrm{C}$ ?
6) How much does the temperature rise on average from April to July?
7) Which month on Mount Everest has the highest average rainfall?
8) How many mm of rain does Mount Everest get on average during May?
9) How many mm of rain does Mount Everest get from September to November?

## * Mountain Climate Line Graphs Answers

| Question | Answer |
| :---: | :---: |
| 1. | Which month on Mount Everest has the lowest average rainfall? |
|  | January |
| 2. | Which month on Mount Everest has the highest average temperature? |
|  | July |
| 3. | Which month on Mount Everest has the highest average rainfall? |
|  | June |
| 4. | Which month on Mount Everest has 105 mm of average rain? |
|  | July |
| 5. | Which month on Mount Everest has an average temperature of $18^{\circ} \mathrm{C}$ ? |
|  | May |
| 6. | How many mm of rain does Mount Everest get on average during May? |
|  | 120 mm |
| 7. | What is the difference in rainfall between April and May? |
|  | 40 mm |
| 8. | How much does the temperature rise on average from April to July? |
|  | $14^{\circ} \mathrm{C}$ |
| 9. | How many mm of rain does Mount Everest get from September to November? |
|  | 245 mm |

# Mountain Climate Line Graphs 

I can answer questions about data presented in a climate line graph.
$0-0$

1) Which months on Mount Kilimanjaro have the lowest average rainfall?
2) How many mm of rain does Mount Kilimanjaro get on average during May?
3) How much does the temperature rise on average from July to November?
4) Which months on Mount Kilimanjaro have the highest average temperature?
5) What is the difference in rainfall between March and April?
6) How many mm of rain does Mount Kilimanjaro get from September to November?
7) Which months on Mount Kilimanjaro have 10 mm of average rain?
8) How much does the temperature fall on average from March to July?
9) How many mm of rain does Mount Kilimanjaro get from January to May?

## t <br> Mountain Climate Line Graphs Answers

| Question | Answer |
| :---: | :---: |
| 1. | Which months on Mount Kilimanjaro have the lowest average rainfall? |
|  | July and August |
| 2. | Which months on Mount Kilimanjaro have the highest average temperature? |
|  | February and March |
| 3. | Which months on Mount Kilimanjaro have 10 mm of average rain? |
|  | June and September |
| 4. | How many mm of rain does Mount Kilimanjaro get on average during May? |
|  | 90 mm |
| 5. | What is the difference in rainfall between March and April? |
|  | 55 m |
| 6. | How much does the temperature fall on average from March to July? |
|  | $7{ }^{\circ} \mathrm{C}$ |
| 7. | How much does the temperature rise on average from July to November? |
|  | $6^{\circ} \mathrm{C}$ |
| 8. | How many mm of rain does Mount Kilimanjaro get from September to November? |
|  | 65 mm |
| 9. | How many mm of rain does Mount Kilimanjaro get from January to May? |
|  | 270 mm |

## 真 <br> Mountain Climate Line Graphs

I can answer questions about data presented in a climate line graph.

## A Graph to Show the Average Temperature and Rainfall on Mount Everest and Mount Kilimanjaro

1) Which month on Mount Everest has an average rainfall of 80 mm ?
2) How many mm of rain does Mount Everest get from April to June?
3) What is the difference in rainfall between the two mountains in June?
4) Which months on Mount Kilimanjaro have an average temperature of $25^{\circ} \mathrm{C}$ ?
5) How many mm of rain does Mount Kilimanjaro get from April to June?
$\qquad$
6) What is the difference in rainfall between the two mountains over the months November and December?
7) Which month on Mount Kilimanjaro has an average rainfall of 90 mm ?
8) How much does the temperature on Everest change on average from August to October?
9) What is the difference in temperature between the two mountains in November?

## Mountain Climate Line Graphs Answers

| Question | Answer |
| :---: | :---: |
| 1. | Which month on Mount Everest has an average rainfall of 80 mm ? |
|  | April |
| 2. | Which months on Mount Kilimanjaro have an average temperature of $25^{\circ} \mathrm{C}$ ? |
|  | April and October |
| 3. | Which month on Mount Kilimanjaro has an average rainfall of 90 mm ? |
|  | May |
| 4. | How many mm of rain does Mount Everest get from April to June? |
|  | 330 mm |
| 5. | How many mm of rain does Mount Kilimanjaro get from April to June? |
|  | 195 mm |
| 6. | How much does the temperature on Everest change on average from August to October? |
|  | $12^{\circ} \mathrm{C}$ |
| 7. | What is the difference in rainfall between the two mountains in June? |
|  | 120 mm |
| 8. | What is the difference in rainfall between the two mountains over the months November and December? |
|  | 15 mm |
| 9. | What is the difference in temperature between the two mountains in November? |
|  | $21^{\circ} \mathrm{C}$ |

## Find My Match Mountain Line Graphs Cards

Hand out the shuffled question and answer cards for the line graph shown on the presentation.
Move around the classroom to find the person with your matching card.
