

# Digestive System Display – Key Questions

Use these key questions as part of your science display about the digestive system. These questions are designed to help to promote discussion and assess children's understanding of the topic. This resource also includes speech bubbles for children to add their responses.

**Can you name  
different parts of the  
digestive system and  
explain how they break  
down food?**

**What different  
nutrients does your  
body need?**

**Why is it important  
that our body breaks  
down food?**

**Can you find out about  
any animals whose  
digestive system works  
differently from ours?**

**What other interesting facts have you learnt about the digestive system?**
