

Lots vs One

Instructions: Cut out the items, laminate and add Velcro for multiple use. The base boards can also be laminated with Velcro added. The student has to match the items to the correct picture. If using Velcro, add the Velcro in strips to ensure that the difference between 'lots' and 'one' is understood, rather than just matching the items to the amounts of Velcro.

Gus has one slice of pizza.

Amit has lots of pizza.

Lots vs One

Instructions: Cut out the items, laminate and add Velcro for multiple use. The base boards can also be laminated with Velcro added. The student has to match the items to the correct picture.
