

Adult Teaching Suggestions

We hope you find these Pre-Key Stage Standard suggestions useful. Please be aware that the suggestions and resources mentioned are potential ways to check understanding relating to the relevant strands. Other resources may be needed in addition to those suggested.

Strand C

Pupil can demonstrate an understanding of the concept of 1:1 correspondence (e.g. giving one cup to each pupil). Prior to developing 1:1 correspondence, it is important that pupils can use a variety of different sorting materials to sort objects into similar groups. Pupils should also be able to recognise if there are too many – or not enough – objects when they are distributed to a small group.

Activity Suggestions

Role Play

Set up a role-play area such as a **café**, **party** or **restaurant** and encourage pupils to count out a specific number of knives, forks and cups that correspond to the number of places that need to be set.

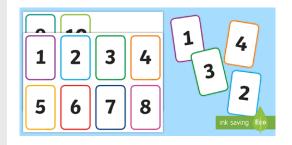

You could introduce simple number names e.g. placing a number three digit card on the table and seeing if children can match three spoons, three cups or three biscuits.

Outdoor Learning

Develop one-to-one correspondence in the outdoor environment through counting and matching a variety of materials, such as leaves, twigs and stones.

You could match **digit cards** to small amounts of sticks or leaves, for example, or assign children a different number of sticks to count and ask them to count their sticks carefully one by one. They could demonstrate their one-to-one correspondence by pointing at each one as they do this and moving each to one side so they know it has been counted.

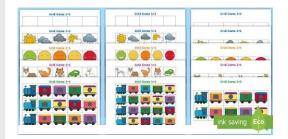

Grid Games

Grid games are a simple way to develop one-to-one correspondence. Use the Grid Games Activity Sheets within this resource pack to practice matching cubes, coins, pom poms, conkers, sweets, number plates, vehicles, stickers, marshmallows or motivating counters.

The aim is to match the counters to the grid, working from left to right as you would when reading, in order to cover the board.

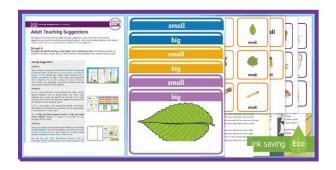

You could use a dice to count the number of counters, matching them to the board.

Food Groups

Fruit and Vegetables

These are good sources of vitamins and minerals and fibre. Aim to eat 5 portions a day! Choose from fresh, frozen, tinned, dried or juiced. Fruit juice and/or smoothies should be limited to no more than a combined total of 150ml per day.

Carbohydrates

Starchy foods such as potatoes, bread, rice, pasta and cereals should make up just over a third of the food you eat. These are important for giving us energy. Choose higherfibre, wholegrain varieties, such as wholewheat pasta and brown rice, or simply leave skins on potatoes.

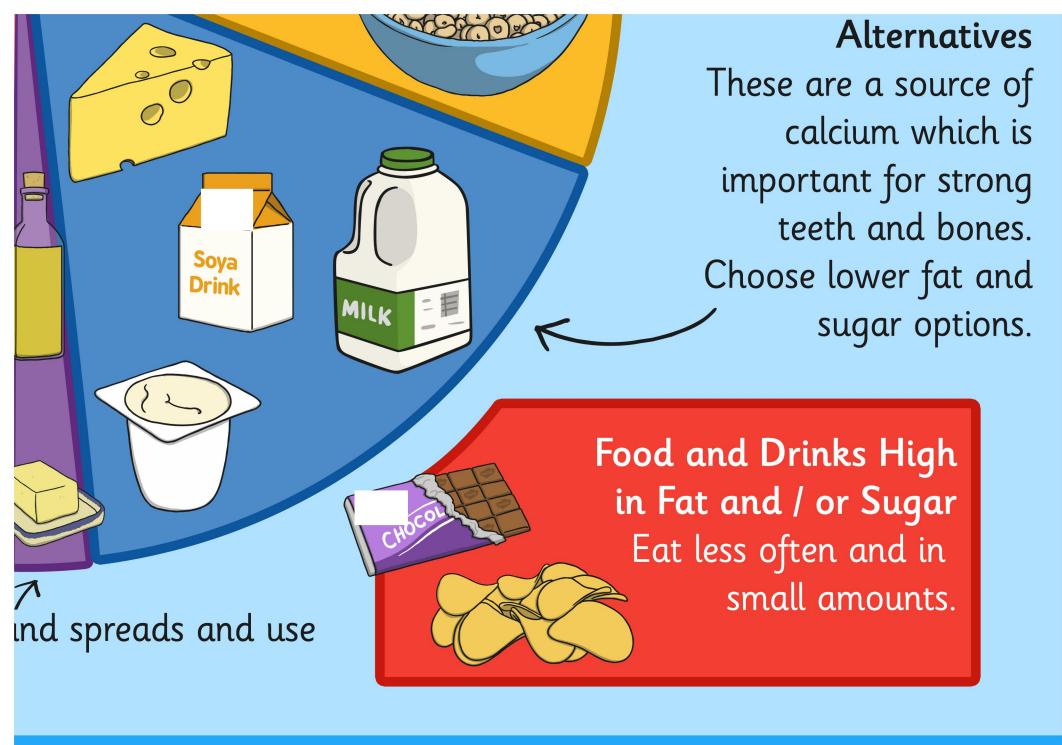

Dairy and

Proteins

Proteins such as beans, pulses, fish, eggs, meat are very important for helping us grow and build muscles. Beans and pulses are a good alternative to meat as they contain less fat and are higher in fibre and protein. Try to eat 2 portions of fish a week, and try to reduce intake of red and processed meat.

Oil and Spreads Choose unsaturated oils of in small amounts. Eat sparingly.
