Sensory Resource Disclaimer:

Sensory activities can engage children in their play and learning, but supervising adults should check for allergens and assess any potential risks (such as the risk of choking from small objects) before the activity and only proceed if it is safe to do so. We cannot be held responsible for the health and safety of those participating and cannot accept any liability. By using this resource, you acknowledge that it is the responsibility of supervising adults to ensure the safety of children in their care.

Alphabet Adapted Work Activities

Adult Guidance: Print and laminate the activity sheets and alphabet matching pieces. Place small round hook and loop fasteners on the alphabet matching part of each activity sheet and on the back of each matching piece. Add thick hook and loop fasteners to the gray line on each activity page for children to keep the alphabet matching pieces until they are used. Place the alphabet matching pieces on the hook and loop fasteners at the bottom of each page. Children will complete each alphabet task by placing the matching pieces onto the indicated area.

Additional tips: The activity pages can be hole punched and placed in a folder or binder for individual student work or IEP goal work.

I Can Match 2D Shapes
