

# Brrr, it's cold!

## Amazing Fact

The lowest temperature ever recorded,  $-89.9^{\circ}\text{C}$ , was recorded at the Soviet Vostok Station in Antarctica on 21 July 1983. This makes it officially one of the coldest places on Earth.

## Activity

Mark and colour the thermometers below using the given temperatures.

## Research challenge

Research the following to learn more:

- how scientists based at the South Pole survive the cold;
- when, and for how long, the South Pole gets sunshine;
- where the hottest place on Earth is.
- which South African town has the highest recorded temperatures.
