Hi there,

I hope you & your little learners enjoy using this freebie :)

A bit about rainbow letters:

My kiddos love making rainbow letters... I don't even think they realise they're learning while engaged with them!

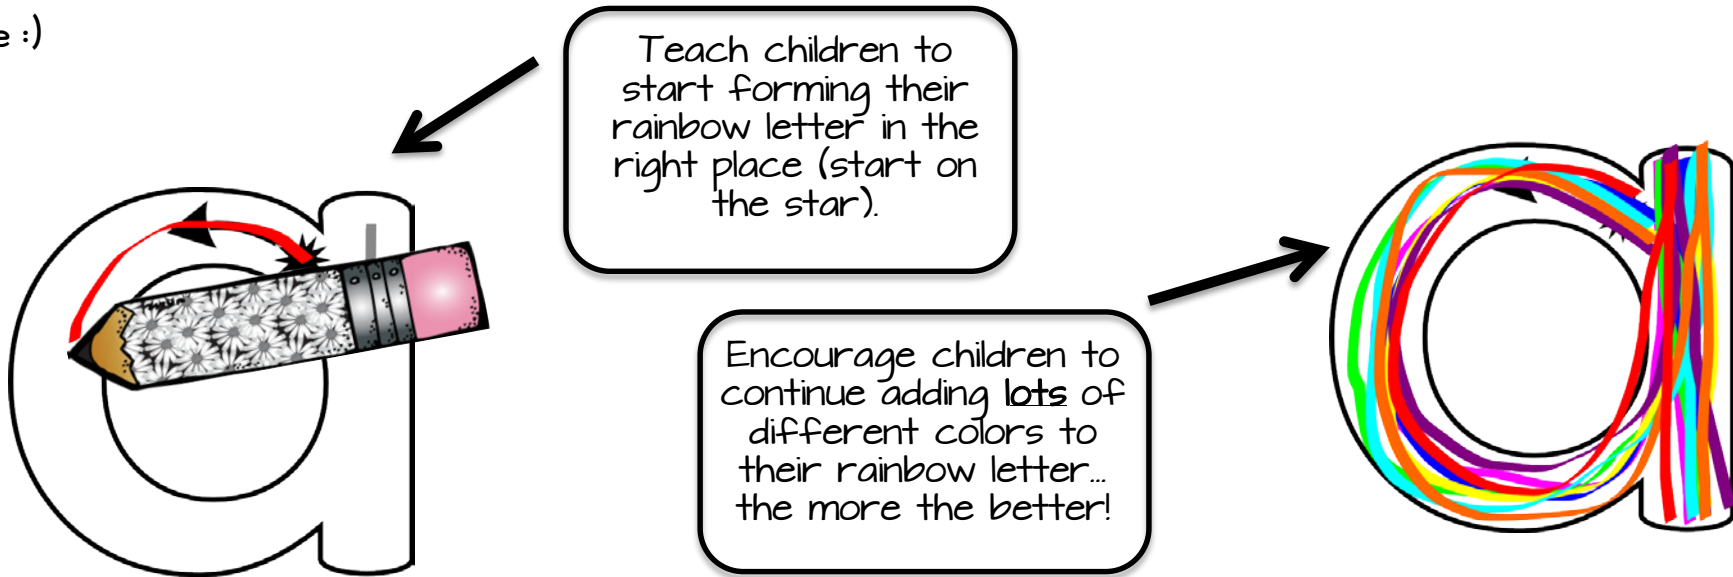

Practicing rainbow letters is a fun & effective way for students to gain printing mileage. Students can practise printing the focus letter with different colored crayons (coloring pencils etc.) inside the letter's shell.

As more colors and layers are added, the letter will start to resemble a rainbow.

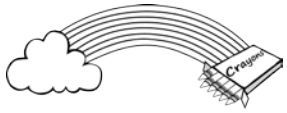

The alphabet graphics in this resource will assist your students in developing correct letter formation.

There are 2 variations of the letter 'Y' in this resource (pg 27 & 28).

Katie :)
