

Olomouc 2024: the 4th meeting of the project partners

DigitalTA meeting, held on 16-19 April at the Faculty of Pedagogy at Palacký University Olomouc, brought together researchers, educators and experts from all partner institutions. The meeting was used to discuss the progress of the project and to define the future plans of all participating institutions.

Where are we now?

The partners carefully outlined the plan for the coming year, setting out a clear roadmap for the project's milestones and objectives.

The IT team is working on adjusting the platform's design to align with educational needs in order to enhance the platform's functionality and user experience. The partners are preparing a pilot which will be run with pre-service teachers in the winter semester of 2024/2025. This will provide an opportunity to evaluate the platform's effectiveness in a real-world educational setting.

The next meeting will be held at Jan Kochanowski University (UJK) in Kielce, Poland, in May 2025. It will be accompanied by an international conference with the aim of promoting transnational dialogue and collaboration. The conference will also serve to disseminate the results of the project and the internet platform designed to connect and support European teachers.
