

BLEED

Printing that goes beyond the edge of where the sheet will be trimmed.

TRIM LINE

The section of the page where your design will be trimmed.

SAFETY

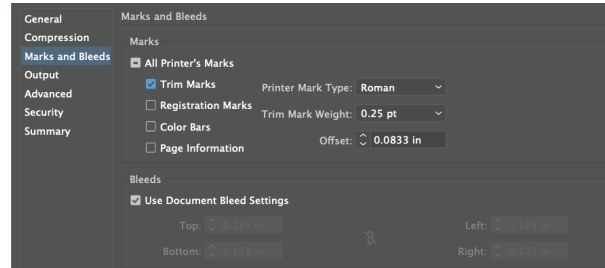

All text must be kept within the blue line.

How to start your artwork in Illustrator

- Go to Windows / Layers panel
- "Your Artwork Here" layer must be selected
- Create your design on this layer and ensure the artwork remains in this area.
- Hide the "Instructions" layer by clicking on the eye icon beside the layer and double click on the layer to uncheck the print box.

How to save your file from Illustrator

- File / Save As / Adobe pdf (pdf)
- Make sure crop marks and bleeds are selected

FRONT

A diagram of a flyer layout. It features a large blue rectangular frame representing the design area. To the left of this frame, there are three horizontal lines with arrows pointing to the left. The top line is red and labeled 'BLEED'. The middle line is black and labeled 'TRIM LINE'. The bottom line is blue and labeled 'SAFETY'.
