PRICES ARE SUBJECT TO CHANGE

Many outside forces effect our production costs and may change the prices currently published in the catalog. We recommend that you request a quote of the current price before submitting an order.

PERSONALIZATIONS

Some products / imprint methods allow for name or variable data personalizations. Please make sure that the option is available for your specific product before placing an order. The charge for personalizations are \$8.00 per name/ variable data for most products. The Chairs and Coolers personalization charge is \$20.00 per name.

CANCELLATIONS

Once your order is in design or proofing stage, your order is considered to be in production and is not able to be canceled or refunded.

MIX & MATCH POLICY

There is no longer a minimum set to order from any specific item. You may order any quantity you wish, although when ordering mix & match colors, the artwork needs to stay the same for each item, and must be ordered in the case quantity listed for each item.

UNDERS / OVERAGES

The industry standards to produce printed products are allowances for over or under runs of the product. Our margins for over or under runs are between a 5% - 8% margin depending on the actual quantity. Please be prepared for this and plan accordingly. The customer is responsible for the additional costs for over runs and will be credited for under runs.

SHIPPING / FREIGHT

We currently ship all packages via UPS. Shipping charges will be charged. R&L Carriers is currently used for all of our skid freight shipments.

CLAIMS

All defective or damage pieces must be reported within 30 days for credits to be applied. If claim is not filed within 30 days of invoice date, Gold Star Printing will not be held liable and no credit will be available.

Print Methods

Below is a list of symbols indicating the print methods available for specific products. Please refer to the symbols for complete detailed imprint information and artwork specifications.

.....

Screen Printing also referred to as Pad Print, is a print process involving screens or plates to transfer the ink to an object. This is normally a one color ink imprint, but can be up to a 2 color imprint for an additional charge. The artwork needs to be in a vector format. Raster images will not print. Personalization is not an option on Screen Print. Standard Ink colors are listed, custom ink mixing is available for an additional charge.

Laser Engraving can be done on a variety of objects. This method is a very durable imprint option and can withstand years of abuse and uses. Artwork needs to be in vector format. Raster images will not engrave. Personalization is available on Laser Engraving for an additional charge. There are no color options with Laser Engraving.

Four Color Process Print is a full color imprint, done via a specialized print head suitable for Promotional Products. This is a highly attractive print option, creating an eye-catching branding option. Artwork works best with vector artwork but High Resolution Raster images can also be used. Personalization is an option for an additional charge. Four Color Process items need to be hand washed only.

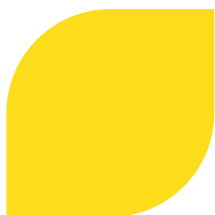

Embroidery is done via a 15 needle sewing machine specifically created for stitching various color of threads in unison to create an eye catching branding option. This method of imprint is limited to the thread color options and exact color matches to your logo cannot be done. Embroidered Promo pieces can be machine washed. Artwork needs to be in solid colors with no gradients, and can be either vector or raster images. Personalization is an option but will incur additional digitizing charges.

Standard Colors:

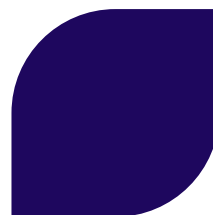

Any other color other than the ones below are considered custom and will require additional ink mixing charges.

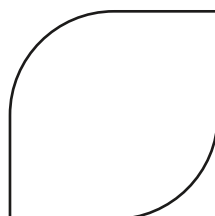

122 Light Yellow

130 Vermillion

152 Ultramarine

170 Opaque White

180 Opaque Black

162 Grass Green
