PRESENTATION: PURE WATER PROJECT AND STORM WATER DIVERSION

Summary

At the December 17, 2018, Triunfo Sanitation District (TSD) Special Board Meeting, your Board requested additional information regarding the JPA's Pure Water Project. Specifically, the questions raised were regarding the demonstration project, project related Grant efforts, and the diversion of storm water flows to the Tapia Treatment Plant, and ultimately, to the Pure Water treatment facility. Staff requested that Mr. David Pedersen, General Manager for the Las Virgenes Municipal Water District, make a presentation to the Board and discuss the storm water diversion issue. Tonight, Mr. Pedersen is ready to present an update on the Pure Water Project and discuss diverted flows to the treatment plant.
