**TWSD FY2020 COMPREHENSIVE ANNUAL FINANCIAL REPORT (CAFR)**

**Summary**

The Comprehensive Annual Financial Report (CAFR) is a financial tool to communicate the District's financial position and financial activities to its customers, oversight bodies, management and creditors. The FY 2020 CAFR was prepared by District staff and the financial statements were independently audited by Rogers Anderson, Malody & Scott, LLP (RAMS), who gave an unmodified ("clean") opinion as to the accuracy and fairness of the financial statements.

The Management's Discussion and Analysis (MD&A), which begins on page 17, provides a narrative overview, analyses and explanation of the basic financial statements. The audited basic financial statements include the Statement of Net Position, Statement of Revenues, Expenses, and Changes in Net Position, and Statement of Cash Flows, along with the notes to the basic financial statements. The Statement of Net Position includes all of the District's investments in resources (assets) and the obligations to creditors (liabilities). It also assesses the liquidity and financial flexibility of the District. The Statement of Revenues, Expenses, and Changes in Net Position accounts for the year's revenues and expenses. This statement measures the success of the District's operation over the past year and can be used to determine if the District has successfully recovered all of its costs through its rates and other changes. Lastly, the Statement of Cash Flows provides information of where the cash came from, what it was used for, and what was the change in cash balance during the reporting period.

The Triunfo Board appointed two Board members to the Finance Committee to oversee the financial reporting process. The Finance Committee typically meets each year with the District's independent auditor addressing the scope of work, as well as the auditor's findings and recommendations during the meeting. That meeting is scheduled for February 22, 2021.

District staff submitted the CAFR to the Government Finance Officers Association (GFOA) for consideration of its Certificate of Achievement for Excellence in Financial Reporting. Appropriations for the GFOA award submission and audit are included in the FY 2021 Adopted Budget.

If you have any questions or concerns about the CAFR or any of the required auditor communication reports here attached, please contact me by e-mail at TinaRivera@vrsd.com or by telephone at 805-658-4646.

**Fiscal Impact**

None

**Recommendation**

It is recommended the Board receive and file the Fiscal Year 2020 Comprehensive Annual Financial Report.

ALVERTINA RIVERA - DIRECTOR OF FINANCE

*Providing Outstanding Service Since 1963*

January 28, 2021

Honorable Board of Directors and Customers  
Triunfo Water & Sanitation District  
Ventura County, California

Members of the Board of Directors:

The Comprehensive Annual Financial Report of the Triunfo Water & Sanitation District (District) as of and for the fiscal years ended June 30, 2020 and June 30, 2019; is hereby submitted. State law requires that every general-purpose local government publish within six months of the close of each fiscal year a complete set of audited financial statements.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Rogers, Anderson, Malody & Scott, LLP, has issued an unmodified (“clean”) opinion on the District’s financial statements for the fiscal years ended June 30, 2020 and June 30, 2019. The independent auditor’s report is located at the front of the financial section of this report.

Management’s discussion and analysis (MD&A) immediately follows the independent auditor’s report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complement this letter of transmittal and should be read in conjunction with it.

**PROFILE OF TRIUNFO**

A public agency, the Triunfo Water & Sanitation District was organized November 12, 1963, as a special district under the County Sanitation District Act, California Health & Safety Code Section 4700 et seq., to provide sanitation services. The District covers approximately 50 square miles of the southeastern portion of Ventura County adjacent to the Los Angeles County line, and serves a population of approximately 33,000. The District receives no tax revenue and relies on fees and charges for services provided.

On October 12, 1964, the District and Las Virgenes Municipal Water District (LVMWD) entered into a joint powers agreement establishing a Joint Venture to construct, operate, maintain, and provide for a regional sewerage system to serve the area within the two Districts' boundaries. The ancillary production and sale of recycled water as a byproduct of the wastewater treatment process has been welcomed by the District's water customers.

The District expanded its service to the community in 1993 with the purchase of the Metropolitan Water Company located within the District's boundaries in Oak Park. The new venture became known as the Oak Park Water Service (OPWS), owned and operated by Triunfo Sanitation District (TSD). On July 1, 2019, the District changed its name from Triunfo Sanitation District to Triunfo Water & Sanitation District (TWSD).

The District's five-member Board of Directors (Board) is comprised of five residents of the District elected at-large by the registered voters of the District. The District's Board meets on the fourth Monday of each month. Meetings are publicly noticed, and citizens are encouraged to attend and participate.

At the start of fiscal year 2020, District staff was provided entirely by contract with Mark Norris for the position of General Manager and the Ventura Regional Sanitation District (VRSD) for all other positions. On August 2019, the District's Board directed staff to move forward with the development of a TWSD Core Management Team which includes the General Manager, Financial Analyst, Management Analyst, and Engineering Analyst, as part of the District's plan to transition administrative and financial functions provided by VRSD in house. In fiscal year 2020, VRSD support consists of approximately seventeen (16.80) full-time equivalent positions made up of the part-time efforts of more than forty-two (42.55) individuals in ten (10) different areas of expertise.

**Administration** – The five directly elected Board members at-large are employees of the District. In addition, the District contracts directly with various consultants and VRSD for all of its management, financial, engineering, maintenance, and operations functions. The arrangement with VRSD, accomplished through a long-term reimbursable contract, allows the District to draw from a pool of sophisticated and technologically capable employees when needed and pay for only the services actually received. On June 4, 2015, a new ten-year contract agreement was entered into between TWSD and VRSD. This contract was amended on August 4, 2018 to address various matters pertaining to the TWSD General Manager whose services were previously engaged through VRSD. Effective on May 3, 2019, the District entered into a direct contract with the General Manager, eliminating VRSD as intermediary between the two parties.

**Joint Venture** – The bulk of the District's sanitation and recycled water activities occur in concert with those of its Joint Venture partner, LVMWD, located in western Los Angeles County. Joint Venture facilities include the Tapia Water Reclamation Facility (Tapia), Rancho Las Virgenes Composting Facility (Rancho), a pumping station and force main that conveys biosolids from Tapia to Rancho, and the portion of the recycled water distribution system which lies within Los Angeles County. A five-year capital improvement plan is in place, and updated at least annually, to maintain these facilities and protect the District's investment in them. Capital improvements are primarily funded through sewer connection fees of \$13,875 per Dwelling Unit.

The District presently owns 29.4% of the Joint Venture wastewater treatment facilities, 44.2% of the land, and 58.4% of the trunk sewers. The District's right to use the facilities is commensurate with its ownership share (29.4%), while recycled water rights are based on actual sewage flows into Tapia. In addition, the District owns 29.4% of the Joint Venture recycled water distribution system.

### ***Tapia Water Reclamation Facility***

The Tapia Water Reclamation Facility applies state-of-the-art technology to transform wastewater into high-quality recycled water. It serves residents living across 120 square miles of southeastern Ventura and western Los Angeles Counties. While the current flow to Tapia averages 7.5 million gallons of wastewater per day (mgd), the District flow averages about 2.2 mgd, representing 30% of the total. Tapia is potentially capable of treating up to 16 mgd.

The wastewater treatment process at Tapia duplicates and accelerates natural biological methods of cleaning wastewater. Filtration and disinfection, the third phase in Tapia's tertiary treatment process, ensures the treated water meets stringent water reuse standards, and is environmentally safe for wildlife and vegetation. The beneficial reuse of this high-quality water has been an important Joint Venture focus since 1972, long before it became a common practice.

Tapia has been honored with numerous awards, including:

- American Water Resources Association (AWRA) Sandor C. Csallany Institutional Award for Exemplary Contributions to Water Resources Management (2004)
- Association of California Water Agencies Environmental Achievement Award (1990 and 1995)
- California Water Pollution Control Association Plant of the Year (1989)
- U.S. Environmental Protection Agency national & regional Award of Excellence (1988)
- Los Angeles Area Plant of the Year (6 times)
- National Environmental Awards Council Outstanding Operation, Maintenance and Total Reuse
- Water Reuse Association Certificate for Contributions to Water Reuse in California

A major challenge for the Tapia plant occurred late in fiscal year 1998 in the form of revised National Pollution Discharge Elimination System (NPDES) permit requirements. Despite significant ongoing efforts, the onerous standards of the revised permit have not been significantly reduced. Discharge of recycled water into Malibu Creek is now prohibited from April 15 through November 15 each year. With extensive water recycling, approximately 300 million gallons (900 acre-feet) of water must either be diverted from the creek to approved recycled water uses, or stored for later use. An alternative is to discharge during this period to the Los Angeles River Watershed, known as "005 discharge."

**Triunfo Sanitation** – The Bell Canyon portion of the District was served for many years by a pump station and force main transporting wastewater up over a hill to Tapia. With the pump station reaching the end of its life and increasing demands expected on Tapia’s capacity, a gravity trunk sewer was constructed in 1985. This allowed the transport of Bell Canyon’s wastewater to the Tillman Water Reclamation Plant operated by the City of Los Angeles within Los Angeles County.

Bond debt was issued for the sewer line construction by Bell Canyon Sewer Assessment District No. 85-1, formed for this purpose. Principal and interest payments were subsequently funded through property owner assessments, which were then paid in full two years earlier than originally scheduled.

In fiscal year 2020, the District paid \$88,961 in capacity and treatment costs to the City and County of Los Angeles. In addition, the District paid \$53,310 toward the Tillman plant expansion. Future capital improvements for this facility are primarily funded through sewer connection fees ranging from \$3,025 to \$13,875 based on parcel identification in the Bell Canyon Sewer Assessment District No. 85-1 assessment area.

Bell Canyon homeowners not included in the assessment district began approaching District contract staff in September 1997 with requests to extend the Bell Canyon force main to serve their properties. Working together, the homeowners and Triunfo staff determined a grinder pump could be used to transport sewage solids to an extended main trunk line, and an agreement was reached relative to costs. Triunfo agreed to finance these costs over a five-year period, and the extension was in use by the end of May 1998. All of these original loans have been fully repaid. Triunfo extended itself to serve these property owners, creating a true public/private partnership. Further, the District Board developed a policy to cover future connections to the force main extension, and equalize costs for all participating homeowners over time. As a result, sewer service has been extended to over 100 additional lots in Bell Canyon, and more are expected as increasing numbers of Bell Canyon homeowners see the advantage of sewer service over aging septic systems.

**Triunfo Recycled Water** – The District provides recycled water treated at Tapia via the Joint Venture through two pipelines to the communities of Oak Park, Lake Sherwood and North Ranch. District recycled water sales were \$2,208,635 and \$2,176,845 in fiscal year 2020 and fiscal year 2019, respectively. The recycled water from Tapia travels through 5.4 miles of District retail recycled water lines to irrigate 7 parks, 6 schools, 1 golf course, 15 acres of landscaping and medians, and 16 homeowners associations. In hot summer months, local irrigation consumes all of the recycled water Tapia produces.

The Lake Sherwood Golf Course, a major recycled water customer, was built in 1989 expecting to use 100% recycled water for irrigation. Sherwood experienced difficulty maintaining turf quality and, in 1996, convinced the Ventura County Planning Department to approve the use of as much as 40% potable water for golf course irrigation. The District appealed based on a California law that requires recycled water be used for irrigation wherever available.

A study of Sherwood's recycled water use was conducted, with the cost split equally by Lake Sherwood Ranch, the Calleguas Municipal Water District, and Triunfo. The study concluded the golf course requires deep drainage to remove salts from irrigation, regardless of whether recycled or potable water is used. Sherwood felt the deep drainage was both excessively disruptive and expensive, and proposed a field test, which was inconclusive. In June 2000, Triunfo proposed a compromise wherein Sherwood agreed to use 250 acre feet of recycled water per year, about 60% of its typical irrigation water requirement.

In 2017, Triunfo purchased the recycled water (RW) system from Calleguas Municipal Water District (Calleguas). The purchase of the RW system (at a cost of approximately \$12 million dollars) terminated the recycled water purchase agreement between Triunfo and Calleguas which allowed Triunfo to wholesale the RW to Hidden Valley and CalWater. The RW system includes 10 miles of pipeline (ranging from 4-18 inches), a 1.8 million gallon storage reservoir (Oak Park Reservoir), and a 5 million gallon per day pump station (Oak Park Pump Station). The RW system serves the communities of Oak Park, North Ranch, Lake Sherwood, and portions of Thousand Oaks.

The District also supported the Las Virgenes–Triunfo Joint Powers Authority in an extensive stakeholder-driven process to identify the best means to maximize the beneficial reuse of treated effluent from the Tapia Water Reclamation Facility. Following two years of study and community stakeholder input that focused on how to best manage discharge from the Tapia Water Reclamation Facility to Malibu Creek, the Pure Water Project Las Virgenes-Triunfo emerged as a preferred alternative to meet the goal, while also providing a local source of potable water. The Pure Water Project will take surplus recycled water from the Tapia Water Reclamation Facility and further treat it to better than drinking water standards. The treated water will be mixed with imported water stored in Las Virgenes Reservoir until needed. At that time, the water will be treated again prior to use in the potable water system.

**Triunfo Potable Water** – The District provides potable water service to the community of Oak Park which is mostly residential and is located at the eastern edge of Ventura County. The 2010 United States Census Bureau data indicates Oak Park has a population of approximately 13,811 with a median household income of \$121,348.

The District receives its potable water supply from the Metropolitan Water District of Southern California which is imported from the Sacramento Delta through Calleguas Municipal Water District, the regional water wholesale agency. The District's policy is to increase the potable water and recycled water rates based on the increased rates from Calleguas Municipal Water District. The latest pass through rate increase will be effective January 1, 2021.

Residential customers make up approximately 94% (number of metered connections) of the District's customer base and consumed approximately 88% of the potable water provided annually by the District. The remaining 12% was consumed by commercial customers.

Potable water deliveries in fiscal year 2020 were 2,034 acre-feet compared to 1,959 acre-feet in fiscal year 2019. These deliveries provided income of \$6,395,205 and \$5,790,358 respectively.

The District's water tank sites have proven useful to cellular communication companies. Five leases were in place at the end of the fiscal year. Collectively, cellular service companies provided income of \$181,378 for fiscal year 2020 and \$171,928 for fiscal year 2019.

### **Economic Condition and Outlook**

#### ***Local Economy***

**Ventura County** – Located directly northwest of Los Angeles County, Ventura County covers 1,843 square miles and boasts 43 miles of Pacific Ocean coastline, 7.5 miles of shoreline in public beaches, and 411 acres in state beach parks. The majority of the County's 842,886 residents live in its southern half, while the Los Padres National Forest spans the northern half. An extensive network of roadways links the County's 10 incorporated cities, with rail, harbor, and airport facilities providing access to outside markets. As a result of the COVID19 pandemic, the economic outlook for Ventura County in 2020 has shifted drastically from 2019. Initially projecting record employment highs, unemployment falling to record lows, and trade and manufacturing output continuing to grow, this optimistic outlook rapidly changed when Governor Newsom ordered a Statewide Emergency to shelter-in-place, followed by a National Emergency that was declared on March 13, 2020. After an unprecedented decline in March and April, economic growth is sluggish, only regaining 31.1% of the over 2.6 million jobs lost in March and April.

**Agriculture** – Ventura County farmers grow over 100 different crops and often harvest two or three crops from the same parcel of land during any given year. In 2019, the estimated gross value for all agriculture in Ventura County was \$2.0 billion decreasing by 5.2% from 2018. Strawberries, celery, lemons, raspberries, and nursery stock are among the five leading crops grown. In 2017, the most recent data available from the California Department of Food and Agriculture, ranks Ventura County 8<sup>th</sup> among all counties in the California in total crop value.

**Income and Unemployment** – Ventura County's unemployment as of June 2020 sits at 12.6% down from 13.9% as of April, the highest rate recorded since 2010. Prior to the state lockdown, the unemployment was 4.7%, a 1.1% increase from June 2019. The largest percentage job declines are occurring in leisure and hospitality and other services, which include dry cleaning and personal care services. These two sectors accounted for over 45% of total job losses in Southern California in July. The smallest percentage decline was in financial services, a sector that has thus far been mostly unscathed during the recession partly due to estimates that nearly 78% of employees in the industry are able to work from home.

The Census ACS 1-year survey reports that the median household income for the Ventura County California area was \$92,236 in 2019, the latest figures available. Ventura County median household income is 13% higher than the median California household income and 29% greater than the US median household income. Median family and per capita income for Ventura County in 2019 was \$40,293, 11% higher than the national average and 2% higher than the California average.

**Real Estate** – Based on 2019 estimates the new housing market within Ventura County will add more units, both single family and apartments. Thomas fire rebuilds will continue, principally in Ventura, for the next year. Homebuilding is anticipated to accelerate to nearly 140,000 units in 2020, the highest level of new housing permits since 2008. Existing home sales in Ventura County climbed a modest 6.6% year-on-year in August, after plunging by double-digit rates from April to June. The median home sale price was \$697,754 in 2019, a 4.2% increase over 2018. Ventura County experienced positive home price growth from a year ago with a robust 12.0% increase. Home prices in Southern California are expected to level out and only increase 1.1% in 2021 as the supply of homes increases to meet demand. Continued strong out-migration is also expected to limit home price gains in the region in 2021.

### ***Long-term Financial Planning***

The Pure Water Project will create a new, local, sustainable and drought-proof drinking water supply through the purification of the Las Virgenes – Triunfo Joint Powers Authority (JPA) surplus recycled water. The recycled water will undergo advance treatment, after which it will be stored at the Las Virgenes Reservoir for later use as drinking water. The project would reduce the need to discharge excess recycled water to Malibu Creek and is intended to diversify the region's water supply and reduce dependence on imported water by generating up to 6 million gallons per day of drinking water. The current estimated cost for the project is \$120 million, but the cost will increase with annual inflation.

### ***Relevant Financial Policies***

The Board appointed one of the Board members to perform a monthly review of all invoices paid on their behalf by Ventura Regional Sanitation District. In addition, the Board also appointed two of the elected Board members to be on the Finance Committee to perform review and oversight in regards to financial matters such as the annual audit, proposed budget, and any other financial issues that require review, analysis, and recommendation before going to the full Board.

The District's investment policy's primary objectives are safety of principal while maintaining liquidity to meet all operating requirements, and attaining a market rate of return on its portfolio. The District's investment policy is in accordance with provisions of the California Government Code. Currently, the District's investment funds are placed in either the Ventura County Pooled investment account or the Local Agency Investment Fund (LAIF) account managed by the State Treasurer.

Staff continues to review the Five-Year Capital Improvement Plan (CIP) and makes recommendation to the District Board of any changes during the budget process. The CIP includes evaluation of the current water and wastewater systems, prioritization for acquisition, maintenance, replacement and retirement of capital assets, and recommendation on improving the operation and reliability of the existing systems.

## ***Major Initiatives***

After over 40-years of contracting for staffing services, the TWSD Board developed a business plan to transition into a more independent and self-reliant District. This transition plan consists of bringing all administrative and financial functions in house. As part of this plan, in FY 2020 the TWSD Board moved forward with the development of a TWSD Core Management Team (CMT) through direct contracts. The CMT consists of the General Manager, Director of Finance, Engineering Program Manager, and Administrative Program Manager. On October 1, 2020 the TWSD Board approved employment contracts with the Core Management Team members, making them employees of the District. The TWSD Board directed staff to enter into discussions with Ventura Regional Sanitation District (VRSD) to negotiate a transition agreement for the remaining administrative and financial services provided by VRSD. As of the date of this report those discussions are ongoing.

## ***Significant Event – Woolsey Fire***

The Woolsey Fire was a destructive wildfire that ignited on November 8, 2018, burned 96,949 acres of land, destroyed 1,643 structures, killed three people, and prompted the evacuation of more than 295,000 people within Los Angeles and Ventura Counties. At a special meeting on November 14, 2018, the TWSD Board of Directors authorized financial relief to water and sewer service customers affected by the fire that burned in and around many sections of TWSD's service area. Water customers received a credit for the amount of water they used for 5 days, during and after the fire. In addition, TWSD sewer customers who lost their homes in the fire were issued a refund for 8 months (November to June) of sewer service charges previously assessed on their property tax bills for fiscal year 2019. The District filed a \$475,961 claim with the Federal Emergency Management Agency (FEMA) for costs incurred in connection with the fire, received a total reimbursement of \$376,150 and is eligible to receive an additional \$19,270 for general administrative costs.

## ***Significant Event – COVID 19 Pandemic***

On March 4, 2020, Governor Newsom proclaimed a State of Emergency in California as a result of the threat of COVID 19. On top of the tragedy of losing over a million lives globally, the economy has been hit severely, impacting individuals, families, and businesses. In an effort to provide assistance to its customers, on March 2020, the District Board authorized suspension of penalties, late fees, and service shut-offs for non-payment of a bill. On May 6, 2020, Governor Newsom issued an executive order suspending imposition of penalties and interests until May 6, 2021, on unpaid property taxes that became delinquent after March 4, 2020.

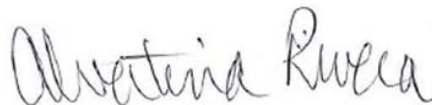

## **Awards & Acknowledgements**

**Excellence in Financial Reporting** – The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Triunfo Water & Sanitation District for its Comprehensive Annual Financial Report (CAFR) for the Fiscal Year ended June 30, 2019. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized CAFR. This report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe this current report continues to meet the Certificate of Achievement program requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

**Acknowledgements** – The preparation of this report was possible because of the dedicated services of the contract Finance & Administration Department staff, each of whom has our sincere appreciation. We also express our appreciation to our independent auditors, Rogers, Anderson, Malody & Scott, LLP, for their contribution and assistance in preparing this report. Finally, we thank the District Board of Directors for their interest and support in planning and conducting the financial operations of the District in a responsive and effective manner.

### *Auditor's Responsibility*

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## ***Opinion***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Triunfo Water & Sanitation District as of June 30, 2020 and the respective changes in financial position and cash flows for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

## ***Other Matters***

### *Prior Year Comparative Information*

We have compiled the accompanying statement of net position of the District as of June 30, 2019, and the related statement of revenues, expenses and changes in net position, and cash flows for the year then ended. We have not audited or reviewed the accompanying 2019 financial statements and, accordingly, do not express an opinion or provide any assurance about whether the financial statements are in accordance with accounting principles generally accepted in the United States of America.

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the District's basic financial statements. The combining schedules, the budgetary comparison schedule and the introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining schedules and the budgetary comparison schedule are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated January 28, 2021, on our consideration of the Triunfo Water & Sanitation District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of the Triunfo Water & Sanitation District's (District) Comprehensive Annual Financial Report (CAFR) offers readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal years ended June 30, 2020 and 2019. This discussion and analysis should be read in conjunction with the transmittal letter beginning at page 1 and the District's basic financial statements following this section.

### Financial Highlights

- The assets of the District exceeded its liabilities at the close of the most recent fiscal year by \$70.1 million (*net position*), an increase of \$3.9 million from the \$66.2 million ending balance in fiscal year 2019. Of the \$50.9 (*unrestricted net position*) in fiscal year 2020, \$18.6 million may be used to meet the District's ongoing obligations to citizens and creditors, in comparison to \$15.1 million in the prior year.
- The District's \$3.4 million net position increase in fiscal year 2020 represents 5.9%, an increase from the \$1.5 million or 2.3% increase in fiscal year 2019.
- In fiscal year 2020, the District's total revenues increased by 5.5% to \$21.4 million while total expenses decreased by 6.9% to \$17.5 million as compared to fiscal year 2019 in which revenues increased by 3.5% to \$20.3 million and total expenses increased by 6.9% to \$18.8 million.

### Overview of the Financial Statements

The Management's Discussion and Analysis (MD&A) is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements include two components: 1) enterprise fund financial statements; and 2) notes to the financial statements. In addition, required supplementary information, supplementary information, and statistical information are also included in the CAFR.

**Basic Financial Statements** The financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. The basic financial statements can be found on pages 26-29 of this report.

The *Statements of Net Position* present information on all of the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The *Statements of Revenues, Expenses, and Changes in Net Position* present information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

The *Statements of Cash Flows* present relevant information about the cash receipts and cash payments for the period categorized according to whether they stem from operating, non-capital financing, capital and related financing, and investing activities. It helps users assess the District's ability to generate future net cash flows, its ability to meet its obligations as they come due, and its needs for financing. It also helps assess the effects on the District's financial position of changes in its cash and non-cash investing, capital, and financing transactions during the period.

The *Notes to the Financial Statements* provide additional information that is essential to a full understanding of the data provided in the basic financial statements and are an integral part of the financial statements. The notes to the financial statements can be found on pages 30-53 of this report.

## Financial Analysis of the District

The Statements of Net Position and the Statements of Revenues, Expenses, and Changes in Net Position report information about the District's activities in a way that will help answer questions as to whether the District, as a whole, is better or worse off as a result of the year's activities. These two statements report the net position of the District and changes in them. You can think of the District's net position as the difference between assets (what is owned) and liabilities (what is owed) and one way to measure its financial health or position.

## Condensed Statements of Net Position

To begin our analysis, a Condensed Statement of Net Position is presented in the following table for our analysis.

<b>Condensed Statements of Net Position</b>				
	<u>2020</u>	<u>2019</u>	<u>Change</u>	<u>% Change</u>
<b>Assets:</b>				
Current assets	\$ 20,476,948	\$ 16,707,711	\$ 3,769,237	22.6%
Restricted current assets	1,302,725	1,276,040	26,685	2.1%
LVMWD/TSD-joint venture	32,295,857	31,306,909	988,948	3.2%
Capital assets, net	<u>35,519,593</u>	<u>37,264,240</u>	<u>(1,744,647)</u>	-4.7%
<b>Total assets</b>	<u>89,595,123</u>	<u>86,554,900</u>	<u>3,040,223</u>	3.5%
<b>Liabilities:</b>				
Liabilities payable from unrestricted current assets	3,152,725	2,782,262	370,463	13.3%
Liabilities payable from restricted current assets	700,725	674,040	26,685	4.0%
Non-current liabilities	<u>15,661,957</u>	<u>16,905,313</u>	<u>(1,243,356)</u>	-7.4%
<b>Total liabilities</b>	<u>19,515,407</u>	<u>20,361,615</u>	<u>(846,208)</u>	-4.2%
<b>Net Position:</b>				
Net investment in capital assets	18,614,280	19,157,347	(543,067)	-2.8%
<b>Restricted:</b>				
Conifer Loan reserve requirement	602,000	602,000	-	0.0%
Unrestricted	<u>50,863,436</u>	<u>46,433,938</u>	<u>4,429,498</u>	9.5%
<b>Total net position</b>	<u>\$ 70,079,716</u>	<u>\$ 66,193,285</u>	<u>\$ 3,886,431</u>	5.9%

Total assets experienced an increase \$3.0 million. While capital assets saw a \$1.7 million reduction, it was offset by increases in current assets and the LVMWD/TSD-joint venture. Total liabilities experienced a reduction of \$.8 million mainly due to the repayment long-term debt (\$1.2 million), resulting in an overall increase of \$3.9 million or 5.9% in net position in fiscal year 2020.

Net position includes three components: *Net investment in capital assets; restricted net position; and unrestricted net position.*

The investment in capital asset component of the District's net position is \$18.6 million and is reflected net of accumulated depreciation and related debt, which represents capital assets used by the District to provide services to its constituency. Although the District's investment in its capital assets is reported net of related debt and other payables, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Another component of the District's net position is the restricted net position which represents resources that are subject to external restrictions of how they may be used. Loan agreements relating to long-term debt restrict certain amounts for debt service, as well as restricted funding received in advance of expenses. The restricted net position is not available for other uses by the District. At June 30, 2020 and 2019, the District's restricted net position was \$602,000 for both fiscal years.

The largest and final component of the District's net position (\$50.9 million) reflects unrestricted net position that may be used to meet the District's ongoing obligations to creditors and constituencies. This figure includes \$32.3 million for the District's capital assets investment in a Joint Venture with the Las Virgenes Municipal Water District, which reflects 46.1% of total District net position, and 63.5% of the District's unrestricted assets. The Joint Venture's capital assets investment is equivalent to property, plant, and equipment within the Joint Venture offset by operating costs. Additional information regarding the District's investment in the Joint Venture can be located in Note B5 on pages 43-45.

In fiscal year 2019, the District's net investment in capital assets was \$19.2 million and the unrestricted net position totaled \$46.4 million. The District's unrestricted net position of \$46.4 million includes capital assets investment in Joint Venture with the Las Virgenes Municipal Water District of \$31.3 million which reflects 47.3% of total District net position, and 67.5% of the District's unrestricted assets. As seen in the table on below, total net position increased by \$1.5 million to \$66.2 million in fiscal year 2019.

<b>Condensed Statements of Net Position</b>				
	<b>2019</b>	<b>2018</b>	<b>Change</b>	<b>% Change</b>
<b>Assets:</b>				
Current assets	\$ 16,707,711	\$ 15,870,458	\$ 837,253	5.3%
Restricted current assets	1,276,040	1,349,030	(72,990)	-5.4%
LVMWD/TSD-joint venture	31,306,909	30,611,211	695,698	2.3%
Capital assets, net	37,264,240	38,796,500	(1,532,260)	-3.9%
<b>Total assets</b>	<b>86,554,900</b>	<b>86,627,199</b>	<b>(72,299)</b>	<b>-0.1%</b>
<b>Liabilities:</b>				
Liabilities payable from unrestricted current assets	2,782,262	3,094,693	(312,431)	-10.1%
Liabilities payable from restricted current assets	674,040	704,638	(30,598)	-4.3%
Non-current liabilities	16,905,313	18,106,893	(1,201,580)	-6.6%
<b>Total liabilities</b>	<b>20,361,615</b>	<b>21,906,224</b>	<b>(1,544,609)</b>	<b>-7.1%</b>
<b>Net Position:</b>

## Condensed Statements of Revenues, Expenses, and Changes in Net Position

A condensed Statement of Revenues, Expenses, and Changes in Net Position is presented in the following table for our analysis. While the Statement of Net Position shows the change in financial position of the District's net position, the Statement of Revenues, Expenses, and Changes in Net Position provides answers as to the nature and source of these changes. As previously mentioned, the increase in total net position was \$3,886,431 in fiscal year 2020.

Total revenues increased by \$1,121,424 (5.5%) compared to fiscal year 2019, comprised of an increase of \$1,491,655 in operating revenues and a decrease of \$370,227 in non-operating revenues.

The \$1,491,655 increase in operating revenues resulted from the following activities:

- Sanitation fees rate increase of 9% resulted in a revenue increase of \$766,086 or 8.5%.
- Potable water rate increase of 3% and a pass through increase of 2% in January resulted in a revenue increase of \$604,847 or 10.4%.
- Recycled water rate increase of 3% and a pass through increase of 3% in January resulted in a revenue increase of \$31,790 or 1.5%.
- A 3% rate increase in Water meter service fees resulted in \$66,723 or 3.2% increase in revenue.
- Other revenues from violations, penalties and late fees increased by \$22,206 or 7.5%.

The \$370,227 decrease in non-operating revenues comprised of:

- A \$357,079 or 93% decrease in Other revenue is mainly the effect of accrued FEMA and insurance claims for property damages in fiscal year 2019.
- Although account balances were high, the declining interest rates resulted in a \$22,602 or 6.7% decrease in Interest and Investment Earnings; and
- Lease escalation adjustments based on cpi index resulted in a \$9,454 or 5.5% increase in Rental revenue.

Total expenses decreased by \$1,292,699 or 6.9% compared to fiscal year 2019. The decrease was primarily due to a decrease in operations, management and administrative costs of \$1,020,960 or 16.4%. The vast majority (\$822,521 or 81%) of the decrease in operations, management and administrative costs is attributed to expenses incurred in fiscal year 2019 due to the occurrence of significant events such as the Woolsey fire, name change project, water system repairs, legal fees and settlement funding. There were no major projects in fiscal year 2020 that required the same amount of resources. In addition, part of the decrease is a result of direct contracts for professional services entered into by the District shifting the expense to Professional services which saw an increase of \$432,102 or 85.7%.

Potable and recycled water purchase increased by \$204,318 and \$32,443 respectively due to a combination of a slight increase potable water units purchased and the increase in cost.

Other expense categories activity included decreases in wastewater treatment (\$337,808 or 7.6%), Investment in Joint Venture with LVMWD (\$542,008 or 33.6%), and Interest expense (\$39,328 or 6.1%), offset by the increase in Professional services (\$432,102 or 85.7%).

**Condensed Statements of Revenues, Expenses, and Changes in Net Position**

	<u>2020</u>	<u>2019</u>	<u>Change</u>	<u>% Change</u>

### Capital Asset and Debt Administration

#### Capital Assets

The District's investment in capital assets as of June 30, 2020, (at cost) amounted to \$61.9 million or \$35.5 million (net of accumulated depreciation). The District's capital assets include land and land improvements, structures and improvements, construction in progress, equipment, and infrastructure.

Changes in capital asset amounts for 2020 were:

	<u>Balance at June 30, 2019</u>	<u>Additions</u>	<u>Deletions/ Transfers</u>	<u>Balance at June 30, 2020</u>
Capital Assets:				
Non-depreciable assets	\$ 370,132	\$ -	\$ (239,306)	\$ 130,826
Depreciable assets	61,737,538	-	-	61,737,538
Accumulated depreciation and amortization	<u>(24,843,430)</u>	<u>(1,505,341)</u>	<u>-</u>	<u>(26,348,771)</u>
Total capital assets, net	<u>\$ 37,264,240</u>	<u>\$ (1,505,341)</u>	<u>\$ (239,306)</u>	<u>\$ 35,519,593</u>

Changes in capital asset amounts for 2019 were:

	<u>Balance at June 30, 2018</u>	<u>Additions</u>	<u>Deletions/ Transfers</u>	<u>Balance at June 30, 2019</u>
Capital Assets:				
Non-depreciable assets	\$ 704,113	\$ 198,717	\$ (532,698)	\$ 370,132
Depreciable assets	61,409,018	-	328,520	61,737,538
Accumulated depreciation and amortization	<u>(23,316,631)</u>	<u>(1,526,799)</u>	<u>-</u>	<u>(24,843,430)</u>
Total capital assets, net	<u>\$ 38,796,500</u>	<u>\$ (1,328,082)</u>	<u>\$ (204,178)</u>	<u>\$ 37,264,240</u>

Major capital asset activity during the fiscal year 2020 included the following:

North Shore Gravity System – Expended - \$239,306 – Abandoned project  
Accumulated depreciation - \$1,505,341

Major capital asset activity during the fiscal year 2019 included the following:

North Shore Gravity System – Wastewater - \$239,305  
Lakeside Lift Station Improvement - \$45,685 Polo Lift Station - \$13,771  
Accumulated depreciation - \$1,526,799  
Expensing of various construction in progress projects that did not materialize

Additional information on the District's capital assets can be found in Note B4 starting on page 42 of this report.

### ***Debt Administration***

The District's long-term debt outstanding as of June 30, 2020 was \$16,571,473.

<u>Description</u>	<u>Balance at June 30, 2019</u>	<u>Additions</u>	<u>Payments/ Deletions</u>	<u>Balance at June 30, 2020</u>
Debt from Direct Borrowings:				
2017 RW System Purchase	\$ 10,447,018	\$ -	\$ (667,941)	\$ 9,779,077
2014 Automated Meter Read Loan	1,821,598	-	(156,961)	1,664,637
2011 Construction loan	<u>5,477,183</u>	<u>-</u>	<u>(349,424)</u>	<u>5,127,759</u>
Total long-term debt	17,745,799	<u>\$ -</u>	<u>\$(1,174,326)</u>	16,571,473
Less current portion	<u>(1,174,326)</u>			<u>(1,216,102)</u>

Total long-term portion	<u>\$ 17,745,799</u>			<u>\$ 16,571,473</u>

### Economic Factors and Next Fiscal Year's Budget and Rates

- The District Board considered the factors mentioned above when setting the fiscal year 2021 budget, rates, and fees. The District's fiscal year 2020-21 Adopted Budget (expenses not including the change in investment-in-joint venture LVMWD/TSD) totaled \$17,696,113, representing a 1.87% increase when compared to the prior year.
- In May 2020, based on the wastewater rate study, the Board approved a five-year programmed rate that will increase sewer service fees by 15% for fiscal years 2021-2024 and 7% for fiscal year 2025. The 15% annual increase will generate approximately \$11.3 million in revenue for fiscal year 2021. In addition, sewer connection fee will also increase by 0.72% based on the Construction Cost Index (CCI) for the Los Angeles area. Revenues derived from the sewer charges were calculated to provide sufficient funding for implementing mandated treatment standards, funding reserves, and the Joint Powers Authority (JPA) capital needs including the Pure Water Project (PWP).
- In May 2020, based on the potable water rate study, the Board approved a five-year programmed rate that will increase quantity rates and monthly service charges by 6% for fiscal years 2021-2023 and 4% for fiscal year 2024-2025. The 6% annual increase will generate additional revenue of approximately \$475,000 for fiscal year 2021. In addition, water service connection fee will also increase by 0.72% based on the Construction Cost Index (CCI) for the Los Angeles area. Revenues derived from the water charges will provide sufficient revenue to meet operating and capital expenses, and to build and maintain adequate reserves.
- In May 2020, based on the recycled water rate study, the Board approved a five-year programmed rate that will increase quantity rates and monthly service charges by 2% for fiscal years 2021-2025. The 2% annual increase will generate additional revenue of approximately \$50,000 for fiscal year 2021. Revenues derived from the water charges will provide sufficient revenue to meet operating and capital expenses, and to build and maintain adequate reserves.
- The TWSD Board developed a business plan to transition into an independent and self-reliant District which consists of bringing all administrative and financial functions in-house. On October 1, 2020, the TWSD Board moved forward with approving employment contracts with the TWSD Core Management Team (CMT), making them employees of the District.
- Calleguas Municipal Water District (CMWD) wholesale supply rate will increase effective January 1, 2021. The CMWD rate increase is a pass through increase to the water customers of the District.

## **Requests for Information**

This financial report is designed to provide a general overview of the District's finances for all those with an interest in them. Questions concerning any of the information provided should be addressed to the Director of Finance, Triunfo Water & Sanitation District, 1001 Partridge Drive, Suite 150, Ventura, California, 93003-0704. Please visit the District's website at [www.triunfowsd.com](http://www.triunfowsd.com).

# TRIUNFO WATER & SANITATION DISTRICT

## Notes to the Financial Statements

For the Fiscal Years Ended June 30, 2020 and June 30, 2019

(With comparative data for prior year)

---

### A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### 1. Reporting Entity

Triunfo Water & Sanitation District (District) was organized on November 12, 1963, as a special District under the County Sanitation District Act, State of California Health & Safety Code Section 4700 et seq., to provide sanitation services for the southeastern portion of Ventura County, adjacent to the Los Angeles County line. The District Board is comprised of five directly-elected members-at-large. On October 12, 1964, the District and Las Virgenes Municipal Water District (LVMWD) entered into a joint powers agreement establishing a Joint Venture (LVMWD/TSD Joint Venture) to construct, operate, maintain and provide for a regional sewerage system to serve the area within the two districts. The District contracts with Ventura Regional Sanitation District for management, engineering, operations & maintenance, and financial services.

The criteria used in determining the scope of the financial reporting entity is based on generally accepted accounting principles. The District is the primary governmental unit based on the foundation of a separately appointed governing board. Component units are legally separate organizations for which the governing board of the primary government is financially accountable. The District is financially accountable if it appoints a voting majority of the organization's governing body and: 1) The primary government and the component unit have a financial benefit or burden relationship; or 2) Management of the primary government have operational responsibility for the activities of the component unit.

The Triunfo Public Facilities Corporation (Corporation) was formed on June 30, 1987, to facilitate the issuance of certificates of participation for the acquisition, construction, operation and maintenance of facilities, equipment, or other property needed by the District and leasing or selling such property to the District and as such has no employees or other operations. Although the Corporation is legally separate, it is included as a blended component unit of the District, as it is in substance part of the District's operations and the District's Board is also the governing board of the Corporation. No separate financial statements are prepared for the Corporation.

#### 2. Measurement Focus and Basis of Accounting

The District reports its activities as an enterprise fund, which is used to account for operations that are financed and operated in a manner similar to a private business enterprise, where the intent of the District is that the costs of providing water to its customers on a continuing basis be financed or recovered primarily through user charges (charges for services), capital grants and similar funding. Revenues and expenses are recognized on the full accrual basis of accounting. Revenues are recognized in the accounting period in which they are earned and expenses are recognized in the period incurred, regardless of when the related cash flows take place.

# TRIUNFO WATER & SANITATION DISTRICT

## Notes to the Financial Statements

For the Fiscal Years Ended June 30, 2020 and June 30, 2019

(With comparative data for prior year)

---

### A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### 2. Measurement Focus and Basis of Accounting (Continued)

Enterprise funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with an enterprise fund's principal ongoing operations. The principal operating revenues of the Triunfo Water & Sanitation District of the potable, recycled, and wastewater services are charges to customers for sales and services. The District also recognizes the tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then, unrestricted resources, as they are needed.

Each year, District staff prepares an annual budget. This annual budget, as adopted by the District Board of Directors is used for planning, serves as a basis for monitoring financial progress, and determines future service charge rates. During the fiscal year, the budget may be amended as circumstances or levels of operations dictates.

#### 3. Financial Reporting

The District's basic financial statements are presented in conformance with generally accepted accounting principles (GASBS No. 34, as amended by GASBS No. 63). These statements established revised financial reporting requirements for state and local governments throughout the United States for the purpose of enhancing the understandability and usefulness of financial reports.

GASBS No. 34 and its related GASB pronouncements provide for a revised view of financial information and restructure the format of financial information provided prior to its adoption. A statement of net position replaces the balance sheet and reports assets, liabilities, and the difference between them as net position, not equity. A statement of revenues, expenses and changes in net position replaces both the income statement and the statement of changes in retained earnings and contributed capital. GASBS No. 34 also requires that the statement of cash flows be prepared using the direct method. Under the direct method, cash flows from operating activities are presented by major categories.

## TRIUNFO WATER & SANITATION DISTRICT

### Notes to the Financial Statements

For the Fiscal Years Ended June 30, 2020 and June 30, 2019

(With comparative data for prior year)

---

#### A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

##### 4. Assets, Liabilities, and Net Position

**Cash and Investments** – The District’s cash and investments are governed by the District’s Investment Policy and in compliance with the California Government Code. For purposes of reporting cash flows, the District considers cash and funds invested in the State of California Local Agency Investment Fund (LAIF), the Ventura County Treasury Pool (VCTP) and money market funds to be cash equivalents. In addition, all investments with an original maturity of three months or less when purchased are considered cash equivalents. Investments are generally stated at fair value, which is based on quoted market prices as of the valuation date. The gain/loss resulting from valuation is reported in the revenue account.

“Interest and Investment Earnings” on the statements of revenues, expenses and changes in net position.

**Restricted assets** – Amounts shown as restricted assets have been restricted for customer deposits, prepaid sewer connection fees for the Lake Sherwood project and reserve fund for the Oak Canyon Reservoir Installment Purchase Financing.

**Accounts receivable water sales and services** – These receivables are comprised of services provided to water customers in the Oak Park service area.

**Accounts receivable sanitation fees** – These receivables are comprised of services provided to wastewater customers throughout the District as well as potable and reclaimed water customers of the District.

**Advance deposits – investment-in-joint venture LVMWD/TSD** – Pursuant to the Joint Powers Agreement, each participant is required to maintain advance deposits with the LVMWD/TSD Joint Venture for the following purposes:

**Operating Reserve Advance Account** – Both participants are required to advance amounts estimated to provide for three months operating expenses. The District’s share of operating reserve advance balances at June 30, 2020 and 2019 were \$1,337,855 and \$1,077,498 respectively.

**Construction Advance Account** – Cash flow during construction is proportionately shared by both participants. Amounts are advanced to the LVMWD/TSD Joint Venture to meet construction cash flow requirements. The District’s share of construction advance balances at June 30, 2020 and 2019 were \$88,284 and \$79,255 respectively.

**Replacement Reserve Advance Account** – Both participants are required to advance amounts for the cost to replace existing assets. The District’s share of replacement reserve advance balances at June 30, 2020 and 2019 were \$3,187,165 and \$2,532,045 respectively.

# TRIUNFO WATER & SANITATION DISTRICT

## Notes to the Financial Statements

For the Fiscal Years Ended June 30, 2020 and June 30, 2019

(With comparative data for prior year)

---

### A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### 4. Assets, Liabilities, and Net Position (Continued)

**Water-in-storage inventory** – Potable water available within the distribution pipelines and storage tanks is estimated and valued by the conversion of cubic feet to acre-feet and multiplied by current cost.

**Prepaid and other** – Certain payments to vendors reflect costs or deposits applicable to future accounting periods and are recorded as prepaid.

**Capital assets** – Property and equipment with a cost of \$5,000 or more and a life greater than one year is capitalized and stated at cost, except for the portions acquired by contribution, which are reported at acquisition value on the date received. The costs of normal maintenance and repair that do not add to the value of the asset or materially extend asset lives are not capitalized.

Depreciation is computed using the straight-line method over estimated useful lives of the assets as shown below:

Equipment	5 to 25 years
Potable water system	40 years
Recycled water system	40 years
Wastewater collection system	50 years

**Construction in progress** – Costs associated with developmental stage projects are accumulated in an in-progress account until the project is fully developed. Once the project is complete, the entire cost of the project is transferred to a capital asset account and depreciated over the estimated useful life.

**Accounts payable and accrued expenses** – Short-term liability for amounts owed to suppliers, contractors and other organizations that have provided goods and services to the District by the end of the fiscal year for which payment had not been made. All properly documented payables and contract payments are processed within thirty days of invoice. In addition, an estimated loss is recorded in this category, net of insurance coverage and inclusive of an estimate for incurred but not reported claims, when it is probable that a claim liability has been incurred and the amount of the loss can be reasonably estimated.

**Long-term obligations** – Long-term debt is recognized as a liability of the enterprise fund when incurred, and is reported on the balance sheet as current and long-term portions.

**Developer refund agreements** – Long-term payables paid at the rate of one-fortieth (1/40) of the total agreement amount with no interest accruing or paid.

# TRIUNFO WATER & SANITATION DISTRICT

## Notes to the Financial Statements

For the Fiscal Years Ended June 30, 2020 and June 30, 2019

(With comparative data for prior year)

---

### A. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### 4. Assets, Liabilities, and Net Position (Continued)

**Customer deposits** – Deposits are required on all new water customer accounts at start of service. The deposit shall be returned to the customer provided the customer's account has been in good standing for twelve consecutive months. A Project Completion Deposit (PCD) is required for sewer connection and tenant improvement projects that need a final audit or inspection by District staff. The PCD shall be refunded upon final completion and final inspection of the project, less any applicable charges.

**Unearned revenue** – In October 2005, Sherwood Development Company, L.P. (Sherwood), paid the District \$666,373 in advance for the connection and inspection fees for Tract 4409, Phases 4 through 8 with an estimated total of sixty-five (65) lots. In 2006, the County of Ventura approved the tract map and Sherwood is expecting to start construction from between five to ten years, or more. In March 2014, one lot was connected to the sewer decreasing unearned revenue by 1.42% to \$656,948. The TSD Board accepted the completed sewer laterals and improvements as part of the District's sewer system. At June 30, 2020 and 2019, the balances related to the connections was \$603,200. An additional, unrelated amount of \$4,690 for prepayment of cell site lease is included in the statement of net position at June 30, 2020.

**Net Position** – Net position reported on the statement of net position is displayed in three components: net investment in capital assets; restricted net position; and unrestricted net position. These three components are defined as follows:

**Net investment in capital assets** – This component of net position consists of capital assets, net of accumulated depreciation and reduced by any debt outstanding against the acquisition, construction or improvement of those assets.

**Restricted net position** – This component of net position consists of restricted assets reduced by liabilities related to those assets. Constraints on net position can be used through external constraints imposed by creditors, grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

**Unrestricted net position** – This component of net position consists of net position that do not meet the definition of restricted or net investment in capital assets.

**Use of estimates** – The preparation of the basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported changes in net position during the reporting period. Actual results could differ from those estimates.

---

### B. DETAILED NOTES

#### 1. Cash and Investments

Generally accepted accounting principles adopted by the District require that certain investments and external investment pools be reported at fair value and disclosure be made of certain deposit and investment risks.

The District's investment policy is governed by and in compliance with the California Government Code. The investment policy's objectives are to provide safety of principal, maintain liquidity, and earn a competitive yield. The District is authorized to invest funds in the California State Treasurer's Local Agency Investment Fund (LAIF), Ventura County Treasurer's Investment Pool (County Pool), and other qualified investments in accordance with the District's investment policy.

#### ***Cash and Cash Equivalents***

Cash and investments as of June 30 are classified in the accompanying financial statements as follows:

	<u>2020</u>	<u>2019</u>
Cash and cash equivalents	\$ 13,853,421	\$ 11,371,097
Restricted cash and cash equivalents	<u>1,302,725</u>	<u>1,276,040</u>
Total Cash and Investments	<u>\$ 15,156,146</u>	<u>\$ 12,647,137</u>

Cash and cash equivalents as of June 30 consist of the following:

	<u>2020</u>	<u>2019</u>
Cash and cash equivalents		
Local Agency Investment Fund (LAIF)	\$ 13,418,508	\$ 10,875,116
Ventura County Treasury Pool	1,158,459	1,132,273
City National Bank	<u>579,179</u>	<u>639,748</u>
Total Cash and Cash Equivalents	<u>\$ 15,156,146</u>	<u>\$ 12,647,137</u>

At June 30, 2020, and 2019, the carrying amount of cash in bank deposits was \$579,179 and \$639,748 respectively. All deposits are insured or collateralized.

# TRIUNFO WATER & SANITATION DISTRICT

## Notes to the Financial Statements

For the Fiscal Years Ended June 30, 2020 and June 30, 2019

(With comparative data for prior year)

---

### B. DETAILED NOTES (Continued)

#### 1. Cash and Investments (Continued)

##### *Investments Authorized by the California Government Code and the District's Investment Policy*

The table below identifies the investment types that are authorized by the District in accordance with the California Government Code (or District's investment policy, where more restrictive). The table also identifies certain provisions of the California Government Code (or the District's investment policy, where more restrictive) that address interest rate risk, credit risk, and the concentration of credit risk. This table does not address investments of debt proceeds held by bond trustees that are governed by the provisions of debt agreements of the District, rather than the general provisions of the California Government Code or the District's investment policy.

<u>Authorized Investment Types</u>	<u>Maximum Maturity</u>	<u>Maximum Percentage of Portfolio</u>	<u>Maximum Investment in One Issuer</u>
LAIF	N/A	None	\$75 million
Ventura County Investment Pool	N/A	None	None

The District's Investment Policy is more restrictive than the California Government Code by prohibiting repurchase and reverse repurchase agreements.

##### ***Credit Risk***

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by (where applicable) the California Government Code, the District's investment policy and the actual rating as of year-end for each investment type. LAIF and the Ventura County Pool are both not rated by a rating agency. In addition, neither has a minimum legal rating.

##### ***Interest Rate Risk***

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the District manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio matures or comes close to maturity evenly over time as necessary to provide requirements for cash flow and liquidity needed for operations.

**TRIUNFO WATER & SANITATION DISTRICT**

**Notes to the Financial Statements  
For the Fiscal Years Ended June 30, 2020 and June 30, 2019  
(With comparative data for prior year)**

---

**B. DETAILED NOTES (Continued)**

**1. Cash and Investments (Continued)**

Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuations is provided by the following table that shows the distribution of the District's investment by maturity date:

<b>Investments at June 30, 2020:</b>	Fair Value	<b>Remaining Maturity (In Months)</b>
<u>Investment Type</u>	<u>Total</u>	<u>12 Month or Less</u>
Local Agency Investment Fund (LAIF)	\$ 13,418,508	\$ 13,418,508
Ventura County Treasury Pool	1,158,459	1,158,459
Total	<u>\$ 14,576,967</u>	<u>\$ 14,576,967</u>

<b>Investments at June 30, 2019:</b>	Fair Value	<b>Remaining Maturity (In Months)</b>
<u>Investment Type</u>	<u>Total</u>	<u>12 Month or Less</u>
Local Agency Investment Fund (LAIF)	\$ 10,875,116	\$ 10,875,116
Ventura County Treasury Pool	1,132,273	1,132,273
Total	<u>\$ 12,007,389</u>	<u>\$ 12,007,389</u>

***Fair Value Measurement***

The District categorizes its fair value measurements within the fair value hierarchy established by accounting principles generally accepted in the United States of America. These principles recognize a three-tiered fair value hierarchy, as follows:

- Level 1: Investments reflect prices quoted in active markets;
- Level 2: Investments reflect prices that are based on a similar observable asset either directly or indirectly, which may include inputs in markets that are not considered active; and
- Level 3: Investments reflect prices based upon unobservable sources.

The District does not have any investments subject to the fair value hierarchy at June 30, 2020 or 2019.

# TRIUNFO WATER & SANITATION DISTRICT

## Notes to the Financial Statements For the Fiscal Years Ended June 30, 2020 and June 30, 2019 (With comparative data for prior year)

---

### B. DETAILED NOTES (Continued)

#### 1. Cash and Investments (Continued)

##### ***Concentration of Credit Risk***

The investment policy of the District contains no limitation on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code. Other than amounts invested in the Local Agency Investment Fund (LAIF) and the Ventura County Treasurer Investment Pool, there are no investments in any one issuer that represent 5% or more of total District investments as of June 30, 2020 and 2019.

##### ***Custodial Credit Risk***

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The California Government Code and the Triunfo Water & Sanitation District investment policy do not contain legal or policy requirements that limit the exposure to custodial credit risk for deposits, other than the following provisions: The California Government Code requires that financial institution secure deposits made by state or local government units by pledging securities in an undivided collateral pool held by a depository regulated under state law. The fair value of pledged securities must equal 110% of the District's deposits. California law allows financial institutions to secure District's deposits by pledging first trust deed mortgage notes having a value of 150% of the District's total deposits.

The custodial risk for investment is the risk that, in the event of the failure of the counterparty (e.g. broker-dealer) to a transaction, a government will not be able to recover the value of its investments or collateral securities that are in the possession of another party. All securities held in the Ventura County Treasurer investment pool are deposited in trust for safekeeping with a custodial bank different from the County's primary bank. Securities are not held in broker accounts. Custodial credit risk does not apply to a local government's indirect investment in securities through the use of mutual funds or government investment pools (such as LAIF). As of June 30, 2020, all of the District's deposits with financial institutions in excess of federal depository insurance limits were collateralized by an interest in an undivided collateral pool as required by State law.

## TRIUNFO WATER & SANITATION DISTRICT

### Notes to the Financial Statements For the Fiscal Years Ended June 30, 2020 and June 30, 2019 (With comparative data for prior year)

---

#### B. DETAILED NOTES (Continued)

##### 1. Cash and Investments (Continued)

###### *Investment in Ventura County Treasurer Investment Pool*

The District is a voluntary participant in the Ventura County Treasurer's investment pool, which complies with the requirements of the California Government Code. Investments are stated at fair value. The fair value of the District's position in the pool is the same as the value of the pool shares. The District maintains a separate balance and investment income is allocated on a pro rata basis. Because the District's deposits are maintained in a recognized pooled investment fund under the care of a third party and the District's share of the pool does not consist of specific, identifiable investment securities owned by the District, no disclosure of the individual deposits and investments is required under generally accepted accounting principles. The District's deposits in the fund are considered highly liquid.

All wire transfer requests must be delivered to the Auditor's office for transmission the following banking day as follows:

- Wire transfers less than \$200,000 by 3:00 p.m. the previous day.
- Wire transfers \$200,000-\$1,000,000 require a minimum of 24 hours advance notice.
- Transfers greater than \$1,000,000 require a minimum of 1 week advance notice.
- Transfers greater than \$10,000,000 require a minimum of 2 weeks advance notice.
- Deviations from the above schedule or estimated dollar values requires advance approval.

Additional information about the Ventura County investment pool can be obtained from the County of Ventura, California – Treasurer-Tax Collector, 800 South Victoria Avenue, California 93009.

###### *Investment in State Investment Pool*

The District is a voluntary participant in the Local Agency Investment Fund (LAIF). LAIF is an external investment pool that is not registered with the Securities and Exchange Commission. It is, however, regulated by the California Government Code. The State of California's LAIF has oversight by the Local Agency Investment Advisory Board, which consists of the State Treasurer, two qualified members in the field of investment or finance, and two qualified government members of the state. Investments are stated at fair value and investment income is allocated on a pro rata basis. The fair value of the District's position in the pool is the same as the value of the pool shares. The District maintains a separate balance and investment income is allocated on a pro rata basis. Because the District's deposits are maintained in a recognized pooled investment fund under the care of a third party and the District's share of the pool does not consist of specific, identifiable investment securities owned by the District, no disclosure of the individual deposits and investments is required under generally accepted accounting principles. The deposits in the fund are considered highly liquid.

---

### B. DETAILED NOTES (Continued)

#### 1. Cash and Investments (Continued)

The Agency's deposit and withdrawal restrictions and limitations are as follows:

- Same day transaction processing occurs for orders received before 10:00 a.m.
- Next day transactions processing occurs for orders received after 10:00 a.m.
- Maximum limit of 15 transactions (combination of deposits and withdrawals) per month.
- Minimum transaction amount requirement of \$5,000, in increments of a \$1,000 dollars.
- Withdrawals of \$10,000,000 or more require 24 hours advance notice.
- Prior to funds transfer, an authorized person must call LAIF to do a verbal transaction.

The amounts invested in the California LAIF are not subject to categorization as they do not represent specifically identifiable investment securities. The share value of the District's investment in LAIF is \$13,418,508 and \$10,875,116 at June 30, 2020 and 2019, respectively.

#### 2. Restricted Assets

Detail of restricted assets as reported in the accompanying statement of net position is shown in the following table:

	<u>2020</u>	<u>2019</u>
Cash and cash equivalents restricted for:		
Customer deposits	\$ 92,835	\$ 70,840
Unearned revenue	607,890	603,200
Conifer loan reserve requirement	<u>602,000</u>	<u>602,000</u>
Total restricted cash and cash equivalents	<u>\$ 1,302,725</u>	<u>\$ 1,276,040</u>

#### 3. Accounts Receivable

Water sales and services, net – These receivables are comprised of services provided to customers in the Oak Park service area and are shown net of an allowance for uncollectible accounts. The allowance totals \$7,114 and \$8,360 at June 30, 2020 and 2019, respectively.

Sanitation fees – The District annually submits a list of customers and service charge amounts to the County of Ventura (County) who, in accordance with the California Government Code, adds these amounts to the annual property tax billing; then collects and distributes the amounts received to the District. Unpaid property tax bills become a lien on the property and, ultimately are collected by the County and paid to the District. Receivable amounts are shown net without an allowance for uncollectible accounts because all are deemed collectable.

## TRIUNFO WATER & SANITATION DISTRICT

### Notes to the Financial Statements

For the Fiscal Years Ended June 30, 2020 and June 30, 2019

(With comparative data for prior year)

#### B. DETAILED NOTES (Continued)

##### 4. Capital Assets (Continued)

Construction in progress - The District has been involved in various construction projects throughout the fiscal year. The balances of the various construction projects that comprise the construction in progress balances at June 30 are as follows:

<u>Construction Projects</u>	<u>2020</u>	<u>2019</u>
Lakeside Lift Station Improvements	\$ 45,685	\$ 45,685
North Shore Gravity System - WW	-	239,306
Polo Lift Station	13,771	13,771
<b>Total</b>	<u>\$ 59,456</u>	<u>\$ 298,762</u>

##### 5. Joint Venture

The District and Las Virgenes Municipal Water District are parties to a joint exercise of powers agreement (LVMWD/TSD Joint Venture Agreement) to provide for construction, operation, maintenance and replacement of a joint sanitation system to serve the respective parties' needs. The LVMWD/TSD Joint Venture is governed by the individual Board of Directors of the two districts meeting in joint session. Equipment costs and contributions for construction are shared in accordance with each district's capacity rights reserved in each component of the LVMWD/TSD Joint Venture system. While the districts own the system jointly, they each account for their share of its financing individually. Thus, the LVMWD/TSD Joint Venture itself has no long-term debt. Operating costs and local maintenance are prorated and billed to the districts in accordance with the average monthly flows contributed to the system. LVMWD is designated the Administering Agent for facilities located in Los Angeles County. The following is a condensed summary of audited financial information for the LVMWD/TSD Joint Venture as of and for the fiscal years ended June 30, 2020 and June 30, 2019:

##### 6. Long Term Obligations

###### *Direct Borrowings:*

###### ***2011 Bank of America, N.A. – Installment Purchase Agreement***

The District entered into an Installment Purchase Agreement with the Triunfo Public Facilities Corporation for \$7,760,000. The funds were received to provide financing for the acquisition and construction of a single 2.1 million gallon buried water storage tank located nearly due north of the intersection of Kanan Road and Churchwood Street on the northeast side of the ridge facing into Oak Canyon Community Park. The existing 1.0 million gallon water storage tank located southwest of the western terminus of Conifer Street was demolished. Additionally, approximately four miles of existing water supply lines and a non-usable water tank and its pump station were acquired through easement agreements and decommissioned. The Triunfo Public Facilities Corporation assigned all of its rights, title and interest in the Installment Purchase Agreement dated February 1, 2011 to Bank of America. Semiannual principal and interest payments of \$300,858 are due February 1 and August 1, commencing August 1, 2011 through February 1, 2031. Interest is at 4.68%. The District has pledged its Net Revenues for the repayment of the Installment Sale Agreement. The Installment Purchase Agreement contains a provision that in the event of default, the Lender may by notice in writing to the District, declare the entire principal amount of the unpaid Installment Payments and the accrued interest thereon to be due and payable immediately.

##### 6. Long Term Obligations (Continued)

###### ***2014 Bank of America, N.A. – Master Equipment Lease/Purchase Agreement***

The District entered into a Master Equipment Lease/Purchase Agreement with Bank of America, National Association for \$2,535,000. The funds were received to provide financing to replace all potable and recycled water meters with Automated Meters. This project eliminated manual reading of the meters and provided the District with timely and more accurate meter reading. Semiannual principal and interest payments of \$107,360 are due May 22 and November 22, commencing November 22, 2014 through May 22, 2029. Interest is at 3.24%. The District has pledged its Net Revenues for the repayment of the Master Equipment Lease/Purchase Agreement. The Installment Purchase Agreement contains a provision that in the event of default, the Lender may by notice in writing to the District, declare the entire principal amount of the unpaid Installment Payments and the accrued interest thereon to be due and payable immediately.

###### ***2017 Bank of America, N.A. – Lease Purchase Agreement***

The District entered into a Lease Purchase Agreement with Bank of America, National Association for \$11,725,000. The funds were received to provide financing for the acquisition of the Calleguas Municipal Water District (CMWD) Recycled Water Pipeline and related facilities including improvements but not limited to a supervisory control and data acquisition (“SCADA”) system. Semiannual principal and interest payments of \$488,699 are due February 15 and August 15, commencing August 15, 2017 through February 15, 2032. Interest rate for the taxable component of \$1,876,000 is at 4.39% and the tax exempt component of \$9,849,000 is at 2.74%. The District has pledged its Net Revenues for the repayment of the Master Equipment Lease/Purchase Agreement. The Installment Purchase Agreement contains a provision that in the event of default, the Lender may by notice in writing to the District, declare the entire principal amount of the unpaid Installment Payments and the accrued interest thereon to be due and payable immediately.

### B. DETAILED NOTES (Continued)

#### 8. Management Agreement

The District has an agreement with the Ventura Regional Sanitation District (VRSD) for VRSD to provide staffing, management, operation and maintenance of facilities; to provide staffing for the administration and management of the District; and support services to the District Governing Board, as well as other closely-related services. The total cost of services paid by the District to VRSD in fiscal year 2020 was \$4,534,375 and \$5,352,043 in fiscal year 2019. There were no major projects in fiscal year 2020 which resulted in a decrease of approximately \$1million can be attributed to:

The original agreement between the two agencies started back in September 1977. Since then, the two agencies have determined it would be to the mutual benefit of both parties to revise and/or amend the contract to reflect changes that have occurred during the past years. The District has the right to evaluate the performance of VRSD's services under the agreement. The current contract expires on June 30, 2026. Both the District and VRSD may terminate this agreement for its convenience and without cause by giving the party one year prior written notice. In addition, both parties may also terminate this agreement in the event of a material default if such default remains uncured upon the expiration of sixty (60) days after receipt of written notice.

### C. OTHER INFORMATION

#### Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The following is how these risks are addressed.

#### *Liability and Worker's Compensation Insurance*

The District's liability and workers' compensation coverage is provided through California Sanitation Risk Management Authority (CSRMA). CSRMA is a joint powers authority (JPA) created to provide self-insurance program to sanitation agencies in the State of California. CSRMA provides liability, property and workers' compensation insurance for approximately 58 sanitation agencies for losses in excess of the members' specified self-insurance retention levels. Individual claims (and aggregate public liability and property claims) in excess of specified levels are covered by excess insurance policies purchased from commercial carriers.

# TRIUNFO WATER & SANITATION DISTRICT

## Notes to the Financial Statements

For the Fiscal Years Ended June 30, 2020 and June 30, 2019

(With comparative data for prior year)

---

### C. OTHER INFORMATION (Continued)

#### 1. Risk Management (Continued)

A Board of Directors composed of members from participating districts governs CSRMA. The Board controls the operations of CSRMA, including selection of management and approval of operating budgets, independent of any influence by the members beyond their representation on the Board. Each member of CSRMA shares surpluses and deficiencies proportionate to its participation in CSRMA. The financial statements of CSRMA may be obtained from:

CSRMA  
c/o Driver Alliant Insurance Services  
100 Pine Street, 11<sup>th</sup> Floor  
San Francisco, California 94111-5101

#### ***Property Insurance***

The District has property insurance coverage with Hanover Insurance Group through Tolman & Wiker Insurance Service LLC, for the following properties located within the unincorporated areas of Oak Park and Lake Sherwood in the City of Thousand Oaks, California:

• Pump Station (4 pump)	\$777,242
• Sherwood RW System (pipeline/meters)	\$2,232,227
• 1.8 MG Reservoir	\$2,057,417
• Oak Park/North Ranch RW System	\$6,553,114
• SCADA System	\$105,000

#### ***Joint Venture Insurance***

The District is insured for a variety of potential exposures associated with the LVMWD/TSD Joint Venture. The LVMWD/TSD Joint Venture is a named insured in the liability and property insurance program of the LVMWD. LVMWD retained Allied World Assurance Company/Joint Powers Risk and Insurance Management Authority, for general liability, property, inverse condemnation, auto and physical damage. The coverage for the general liability provides \$11 million per occurrence and \$20 million in the aggregate with a \$100,000 deductible per occurrence. The coverage for the property provides \$61 million of coverage with a deductible of \$100,000 per occurrence.

Effective August 1, 2012, the LVMWD/TSD Joint Power's Authority retained ACWA/JPIA for its workers' compensation insurance coverage.

Liabilities include an amount for claims that have been incurred but not reported (IBNR). There were no IBNR claims payable as of June 30, 2020 and 2019.

## TRIUNFO WATER & SANITATION DISTRICT

### Notes to the Financial Statements

For the Fiscal Years Ended June 30, 2020 and June 30, 2019

(With comparative data for prior year)

---

#### C. OTHER INFORMATION (Continued)

##### 2. Commitments and Contingencies

The District had contractual commitments with outside firms for engineering, consulting, or other various supplies and services totaling approximately \$21,920 and \$60,986 in fiscal years 2020 and 2019, respectively.

The District is involved in litigation encountered in the normal course of business. In certain of these matters, the defense costs and settlement costs, if any, are covered by the District's liability insurance policies. In the opinion of management, there is no pending litigation that would materially affect the District's liability insurance policies or financial position.

##### 3. Subsequent events

On January 1, 2021, the Calleguas Municipal Water District (CMWD) increased the wholesale potable water rate charge to the District by 2.38% which directly impacts recycled water costs as well. CMWD's increase results in a pass through rate increase to the District's water customers to cover CMWD's increase as follows:

- Potable water tiered rates by eight cents per hundred cubic feet (\$0.08/HCF)
- Recycled water retail rates by seventeen cents per hundred cubic feet (\$0.3/HCF)
- Recycled water wholesale rate by thirty-nine dollars and twenty cents per acre foot (\$28/AF)

The District's water rate increases are effective January 1, 2021.

**TRIUNFO**  
WATER & SANITATION DISTRICT

**COMBINING  
SUPPLEMENTARY SCHEDULES  
FISCAL YEAR ENDED JUNE 30, 2020**

## **TYPES OF OPERATIONS**

**Wastewater Operations** – The Triunfo Water & Sanitation District owns, operates and maintains a wastewater collection system including piping; pump stations, force mains and pressure mains within its boundaries. The collection system delivers effluent to the Tapia Wastewater Reclamation Facility located in Los Angeles County. There is a joint partnership between the Triunfo Water & Sanitation District and the Las Virgenes Municipal Water District for the ownership and operation of this facility.

**Recycled Water Operations** – The District provides recycled water from Tapia through two pipelines to the communities of Oak Park, Lake Sherwood and North Ranch. The recycled water from Tapia travels through 5.4 miles of District retail recycled water lines to irrigate 7 parks, 6 schools, a golf course, 15 acres of landscaping and medians, and 16 homeowners associations. In hot summer months, local irrigation consumes all of the recycled water Tapia produces.

**Potable Water Operations** – Through the Oak Park Water Service (OPWS), the District provides potable water service to households in the community of Oak Park. The Oak Park community is mostly residential and is located at the eastern edge of the county.

# Statistical Section

Comprehensive Annual Financial Report  
For the Fiscal Years Ended  
June 30, 2020 and June 30, 2019

**Triunfo Water & Sanitation District  
Statistical Section**

This part of the District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

**Table of Contents**

	<b><u>Page No.</u></b>
Financial Trends These schedules contain information to help the reader understand how the District's financial performance and well-being have changed over time.	60-63
Revenue Capacity These schedules contain information to help the reader assess the District's most significant own-source revenues, wastewater service, potable water sales, and recycled water sales.	64-67
Debt Capacity These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.	68-69
Demographic Information These schedules offer demographic indicators to help the reader understand the environment within which the District's financial activities take place.	70-73
Operating Information This schedule contains service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides.	74

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Triunfo Water & Sanitation District (the District) as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated January 28, 2021.

### ***Internal Control over Financial Reporting***

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### ***Compliance and Other Matters***

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

To the Board of Directors  
Triunfo Water & Sanitation District  
Ventura, California

We have audited the financial statements of Triunfo Water & Sanitation District (the District) as of and for the year ended June 30, 2020, and have issued our report thereon dated January 28, 2021. Professional standards require that we advise you of the following matters relating to our audit.

#### **Our Responsibility in Relation to the Financial Statement Audit**

As communicated in our engagement letter dated May 6, 2020, our responsibility, as described by professional standards, is to form and express an opinion about whether the financial statements that have been prepared by management with your oversight are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America. Our audit of the financial statements does not relieve you or management of your respective responsibilities.

Our responsibility, as prescribed by professional standards, is to plan and perform our audit to obtain reasonable, rather than absolute, assurance about whether the financial statements are free of material misstatement. An audit of financial statements includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control over financial reporting. Accordingly, as part of our audit, we considered the internal control of the District solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

We are also responsible for communicating significant matters related to the audit that are, in our professional judgment, relevant to your responsibilities in overseeing the financial reporting process. However, we are not required to design procedures for the purpose of identifying other matters to communicate to you.

To the Board of Directors  
Triunfo Water & Sanitation District

### **Planned Scope and Timing of the Audit**

We conducted our audit consistent with the planned scope and timing we previously communicated to you.

### **Compliance with All Ethics Requirements Regarding Independence**

The engagement team, others in our firm, as appropriate, and our firm have complied with all relevant ethical requirements regarding independence.

### **Qualitative Aspects of the Entity's Significant Accounting Practices**

#### *Significant Accounting Policies*

Management has the responsibility to select and use appropriate accounting policies. A summary of the significant accounting policies adopted by the District is included in Note A to the financial statements. There have been no other initial selections of accounting policies and no changes in significant accounting policies or their application during 2020. No matters have come to our attention that would require us, under professional standards, to inform you about (1) the methods used to account for significant unusual transactions and (2) the effect of significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus.

### **Significant Accounting Estimates**

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's current judgments. Those judgments are normally based on knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ markedly from management's current judgments. The most sensitive accounting estimates affecting the financial statements were:

Management's estimate of the fair value of investments is based on information provided by financial institutions. We evaluated the key factors and assumptions used to develop the fair value of investments in determining that it is reasonable in relation to the financial statements taken as a whole.

Management's estimate of capital asset depreciation is based on historical estimates of each capitalized item's useful life. We evaluated the key factors and assumptions used to develop the estimated useful lives in determining that it is reasonable in relation to the financial statements taken as a whole.

To the Board of Directors  
Triunfo Water & Sanitation District

### *Financial Statement Disclosures*

Certain financial statement disclosures involve significant judgment and are particularly sensitive because of their significance to financial statement users. The most sensitive disclosures affecting the District's financial statements relate to:

The disclosure of fair value of investments in the notes to the financial statements represents amounts susceptible to market fluctuations.

The disclosure of accumulated depreciation in the notes to the financial statements is based on estimated useful lives which could differ from actual useful lives of each capitalized item.

The disclosure related to the possible effects of the COVID-19 pandemic in the notes to the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

### **Significant Difficulties Encountered during the Audit**

We encountered no significant difficulties in dealing with management relating to the performance of the audit.

### **Uncorrected and Corrected Misstatements**

For purposes of this communication, professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that we believe are trivial, and communicate them to the appropriate level of management. Further, professional standards require us to also communicate the effect of uncorrected misstatements related to prior periods on the relevant classes of transactions, account balances or disclosures, and the financial statements as a whole and each applicable opinion unit. There were no such misstatements.

### **Disagreements with Management**

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter, which could be significant to the District's financial statements or the auditor's report. No such disagreements arose during the course of the audit.

### **Representations Requested from Management**

We have requested certain written representations from management, which are included in the attached letter dated January 28, 2021.

### **Management's Consultations with Other Accountants**

In some cases, management may decide to consult with other accountants about auditing and accounting matters. Management informed us that, and to our knowledge, there were no consultations with other accountants regarding auditing and accounting matters.

To the Board of Directors  
Triunfo Water & Sanitation District

### **Other Significant Matters, Findings, or Issues**

In the normal course of our professional association with the District, we generally discuss a variety of matters, including the application of accounting principles and auditing standards, operating and regulatory conditions affecting the entity, and operational plans and strategies that may affect the risks of material misstatement. None of the matters discussed resulted in a condition to our retention as the District's auditors.

### **Other Information in Documents Containing Audited Financial Statements**

Pursuant to professional standards, our responsibility as auditors for other information in documents containing the District's audited financial statements does not extend beyond the financial information identified in the audit report, and we are not required to perform any procedures to corroborate such other information. However, in accordance with such standards, we have applied certain limited procedures to the required supplementary information. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the Required Supplementary Information (RSI) and do not express an opinion or provide any assurance on the RSI.

We were engaged to report on supplementary information, which accompany the financial statements but are not RSI. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

We were not engaged to report on the introductory section and statistical data, which accompany the financial statements but are not RSI. We did not audit or perform other procedures on this other information and we do not express an opinion or provide any assurance on it.

Our responsibility also includes communicating to you any information which we believe is a material misstatement of fact. Nothing came to our attention that caused us to believe that such information, or its manner of presentation, is materially inconsistent with the information, or manner of its presentation, appearing in the financial statements.

This report is intended solely for the information and use of the Board of Directors and management of the District and is not intended to be and should not be used by anyone other than these specified parties.

San Bernardino, California 92408

This representation letter is provided in connection with your audit of Triunfo Water & Sanitation District (the District) as of June 30, 2020 and for the year then ended, and the related notes to the financial statements, for the purpose of expressing an opinion on whether the basic financial statements present fairly, in all material respects, the financial position, results of operations, and cash flows, of the District in accordance with accounting principles generally accepted for governments in the United States of America (U.S. GAAP).

Certain representations in this letter are described as being limited to matters that are material. Items are considered material, regardless of size, if they involve an omission or misstatement of accounting information that, in the light of surrounding circumstances, makes it probable that the judgment of a reasonable person relying on the information would be changed or influenced by the omission or misstatement.

We confirm that, to the best of our knowledge and belief, having made such inquiries as we considered necessary for the purpose of appropriately informing ourselves as of January 28, 2021:

**Financial Statements**

- 1) We have fulfilled our responsibilities, as set out in the terms of the audit engagement letter dated May 6, 2020, including our responsibility for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP and for preparation of the supplementary information in accordance with the applicable criteria.
- 2) We acknowledge our responsibility for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.
- 3) We acknowledge our responsibility for compliance with the laws, regulations, and provisions of contracts and grant agreements.
- 4) We acknowledge our responsibility for the design, implementation, and maintenance of internal control to prevent and detect fraud.
- 5) We have reviewed, approved, and taken responsibility for the financial statements and related notes.

- 6) We have identified and communicated to you all previous audits, attestation engagements, and other studies related to the audit objectives and whether related recommendations have been implemented.
- 7) Significant assumptions we used in making accounting estimates, including those measured at fair value, are reasonable.
- 8) Related party relationships and transactions have been appropriately accounted for and disclosed in accordance with the requirements of U.S. GAAP.
- 9) All events subsequent to the date of the financial statements and for which U.S. GAAP requires adjustment or disclosure have been adjusted or disclosed.
- 10) The effects of all known actual or possible litigation and claims have been accounted for and disclosed in accordance with U.S. GAAP.
- 11) All components of net position are properly classified and, if applicable, approved.
- 12) Our policy regarding whether to first apply restricted or unrestricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available is appropriately disclosed and net position is properly recognized under the policy.
- 13) All revenues and expenses within the statement of revenues, expenses and changes in net position have been properly classified.
- 14) Deposit and investment risks have been properly and fully disclosed.
- 15) Capital assets, including infrastructure assets, are properly capitalized, reported, and if applicable, depreciated.
- 16) All required supplementary information is measured and presented within the prescribed guidelines.
- 17) With regard to investments and other instruments reported at fair value:
  - a) The underlying assumptions are reasonable and they appropriately reflect management's intent and ability to carry out its stated courses of action.
  - b) The measurement methods and related assumptions used in determining fair value are appropriate in the circumstances and have been consistently applied.
  - c) The disclosures related to fair values are complete, adequate, and in accordance with U.S. GAAP.
  - d) There are no subsequent events that require adjustments to the fair value measurements and disclosures included in the financial statements.

**Information Provided**

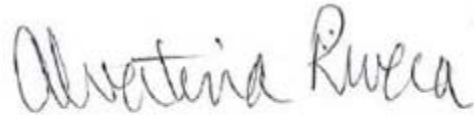

- 18) We have provided you with:
  - a) Access to all information, of which we are aware that is relevant to the preparation and fair presentation of the financial statements of the District, such as records, documentation, meeting minutes, and other matters;
  - b) Additional information that you have requested from us for the purpose of the audit.
  - c) Unrestricted access to persons within the District from whom you determined it necessary to obtain audit evidence.
- 19) All material transactions have been recorded in the accounting records and are reflected in the financial statements.

- 20) We have disclosed to you the results of our assessment of the risk that the financial statements may be materially misstated as a result of fraud.
- 21) We have no knowledge of any fraud or suspected fraud that affects the District and involves:
  - a) Management,
  - b) Employees who have significant roles in internal control, or
  - c) Others where the fraud could have a material effect on the financial statements.
- 22) We have no knowledge of any allegations of fraud or suspected fraud affecting the District's financial statements communicated by employees, former employees, regulators, or others.
- 23) We have disclosed to you all known actual or possible litigation, claims, and assessments whose effects should be considered when preparing the financial statements.
- 24) We have disclosed to you the identity of the District's related parties and all the related party relationships and transactions of which we are aware.
- 25) There have been no communications from regulatory agencies concerning noncompliance with or deficiencies in accounting, internal control, or financial reporting practices.
- 26) The District has no plans or intentions that may materially affect the carrying value or classification of assets and liabilities.
- 27) We have disclosed to you all guarantees, whether written or oral, under which the District is contingently liable.
- 28) We have disclosed to you all significant estimates and material concentrations known to management that are required to be disclosed in accordance with GASB Statement No. 62 (GASB-62), *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*. Significant estimates are estimates at the balance sheet date that could change materially within the next year. Concentrations refer to volumes of business, revenues, available sources of supply, or markets or geographic areas for which events could occur that would significantly disrupt normal finances within the next year.
- 29) We have identified and disclosed to you the laws, regulations, and provisions of contracts and grant agreements that could have a direct and material effect on financial statement amounts, including legal and contractual provisions for reporting specific activities in separate funds.
- 30) There are no:
  - a) Violations or possible violations of laws or regulations, or provisions of contracts or grant agreements whose effects should be considered for disclosure in the financial statements or as a basis for recording a loss contingency, including applicable budget laws and regulations.
  - b) Unasserted claims or assessments that our lawyer has advised are probable of assertion and must be disclosed in accordance with GASB-62.
  - c) Other liabilities or gain or loss contingencies that are required to be accrued or disclosed by GASB-62.
  - d) Continuing disclosure consent decree agreements or filings with the Securities and Exchange Commission and we have filed updates on a timely basis in accordance with the agreements (Rule 240, 15c2-12).

- 31) The District has satisfactory title to all owned assets, and there are no liens or encumbrances on such assets nor has any asset or future revenue been pledged as collateral, except as disclosed to you.
- 32) We have complied with all aspects of grant agreements and other contractual agreements that would have a material effect on the financial statements in the event of noncompliance.
- 33) The financial statements include all component units as well as joint ventures with an equity interest, and properly disclose all other joint ventures and other related organizations.
- 34) We acknowledge our responsibility for the required supplementary information (RSI). The RSI is measured and presented within prescribed guidelines and the methods of measurement and presentation have not changed from those used in the prior period. We have disclosed to you any significant assumptions and interpretations underlying the measurement and presentation of the RSI.
- 35) With respect to the District's supplementary information:
  - a) We acknowledge our responsibility for presenting the supplementary information in accordance with accounting principles generally accepted in the United States of America, and we believe the supplementary information, including its form and content, is fairly presented in accordance with accounting principles generally accepted in the United States of America. The methods of measurement and presentation of the supplementary information have not changed from those used in the prior period, and we have disclosed to you any significant assumptions or interpretations underlying the measurement and presentation of the supplementary information.
