Board of Directors  
Triunfo Water & Sanitation District  
Ventura County, California

**DROUGHT CONDITIONS AND SUPPLY UPDATE FOR FY2022**

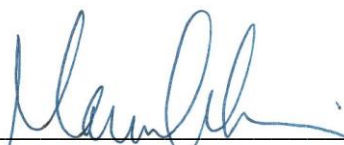

**Summary**

At the May 24, 2021, Triunfo Water & Sanitation District (District) Board Meeting, the Board requested an update on the State of California's current drought outlook. Staff reviewed the updates from Calleguas Municipal Water District (Purveyor for TWSD), Las Virgenes Municipal Water District (JPA Partner), and the CA Department of Water Resources (DWR) and has the following key points:

- Snowpack for the Sierra-Nevada Range only registered 59% of normal accumulation as of April 1st
- Water reservoirs for the Southern California region reached 100% of capacity during the recent rainy season
- CMWD has not directed its clients to declare additional water conservation measures
- LVMWD declared a Stage 1 Alert to focus on assisting and educating its customers to use water wisely but not restricting usage at this time

Based on the current information and consensus by the governing agencies, there are no anticipated supply shortages for the District for FY2022. However, as this situation is closely monitored, any changes will be brought before the Board for further discussions and direction.

REVIEWED AND APPROVED
