Triunfo Sanitation District  
Ventura County, California

**CONSERVATION PROGRAM**

The Triunfo Water & Sanitation District/Oak Park Water 2010 Urban Water Management Plan requires urban water retailers to meet a goal of reducing water usage 20% by 2020 with an interim goal of 10% by 2015. Attached is a monthly report to compare Oak Park's water usage each month with this year's goal. The chart also contains the projected annual water purchase from Calleguas prorated by month. Staff has included on the chart the FY 19 data as a comparison of the monthly usage for last year.

As a part of the State Water Quality Control Board recent Drought Emergency Regulations activated on July 28, 2014, staff has begun the required monthly reporting. The confirmation for the July reporting is attached. Based on the qualifications reported in the Urban Water Management Plan requirement, staff is calculating the GPCD figures using an 89% residential factor. This factor assumes that 89% of all water consumed in Oak Park is by residential customers. This GPCD data will not match the GPCD data reported as part of the California Urban Water Conservation Council (CUWCC) reporting requirements under the Urban Water Management Planning Act due to the 89% residential factor.

In July 2020 Staff received 138 water conservation calls, 104 violation letters were sent to homeowners, no violations were reported by Oak Park residents, and conducted 3 water audits. A total of 104 resident was notified of a leak on their property.

Recycled water consumption for July 2020 was 89 acre feet compared to 88 acre feet in July 2019.

A handwritten signature in blue ink, appearing to read "RJ", is written over a horizontal line.

RICHARD JONES – OPERATIONS MANAGER

REVIEWED AND APPROVED A handwritten signature in blue ink, appearing to read "Mark Norris", is written over a horizontal line.  
Mark Norris - General Manager

**CONSERVATION PROGRAM**

The Triunfo Water & Sanitation District/Oak Park Water 2010 Urban Water Management Plan requires urban water retailers to meet a goal of reducing water usage 20% by 2020 with an interim goal of 10% by 2015. Attached is a monthly report to compare Oak Park's water usage each month with this year's goal. The chart also contains the projected annual water purchase from Calleguas prorated by month. Staff has included on the chart the FY 19 data as a comparison of the monthly usage for last year.

As a part of the State Water Quality Control Board recent Drought Emergency Regulations activated on July 28, 2014, staff has begun the required monthly reporting. The confirmation for the August reporting is attached. Based on the qualifications reported in the Urban Water Management Plan requirement, staff is calculating the GPCD figures using an 89% residential factor. This factor assumes that 89% of all water consumed in Oak Park is by residential customers. This GPCD data will not match the GPCD data reported as part of the California Urban Water Conservation Council (CUWCC) reporting requirements under the Urban Water Management Planning Act due to the 89% residential factor.

In August 2020 Staff received 182 water conservation calls, 90 violation letters were sent to homeowners, no violations were reported by Oak Park residents, and conducted 6 water audits. A total of 90 resident was notified of a leak on their property.

Recycled water consumption for August 2020 was 100 acre feet compared to 97 acre feet in August 2019.
