DESIGN-BUILD PROJECT UPDATE FOR LAKE SHERWOOD VARIABLE GRADE GRAVITY SEWER SYSTEM REPLACEMENT (VACUUM SEWER PROJECT)

Summary

At the January 22, 2018, Triunfo Sanitation District (TSD) Board Meeting, your Board approved moving forward with the design build concept proposed by KEH & Associates (KEH) to replace the Lake Sherwood Variable Grade Gravity Sewer System. With assistance from staff, KEH assembled the Request for Qualifications (RFQ) that went out for consideration on August 23, 2018, with a submission deadline of September 27, 2018. The District received responses from two entities, Pascal & Ludwig/TetraTech and Blois Construction. Those packets are being reviewed and scored by KEH and staff to determine their respective scoring for the RFQ. Staff and KEH are currently working to finalize the Request for Proposal that is expected to be released to the two responders in mid-December with a submission time frame of Mid-February 2019. Following scoring of the proposals and in accordance with the criteria set forth in the RFQ, a final selection will be made for Board review for the April, 22 2019, Board Meeting, if not sooner.
