ORDINANCE NO. TWSD-450 (Adopted 11/23/20) – PRESCRIBING FEES AND CHARGES FOR RECYCLED WATER

Summary

The Triunfo Water & Sanitation District (District) Board adopted Ordinance No. TWSD-450 (Adopted 5/18/20) (TWSD-450) that took effect on July 1, 2020, billing period. In order to ensure adequate funding for future recycled water capital projects and maintain the historical pricing relationship between District retail potable water rates and retail recycled water rates, staff is recommending a 2.4% retail recycled water rate increase.

Effective January 1, 2021, the Calleguas Municipal Water District (Calleguas) will increase the wholesale potable supply rate charge to the District by 2.4% which will impact two of the District’s customers, namely, California Water Service and Hidden Valley Municipal Water District. Staff recommends the District also increase the recycled water rate for its retail customers by the same 2.4%, or thirteen cents per HCF (\$0.13/HCF). The increase in the District’s recycled water retail rate is specified in Table I below:

Table I: Increase in Recycled Water Retail Rates

Current Rate FY 2021 (per HCF)	Proposed Rate 1/1/2021 (per HCF)	Rate FY 2022 (per HCF)	Rate FY 2023 (per HCF)	Rate FY 2024 (per HCF)	Rate FY 2025 Per HCF)
\$5.26	\$5.39	\$5.50	\$5.61	\$5.72	\$5.84

Notes: HCF = 100 cubic feet of water = 748 gallons

The proposed rate of \$5.39/HCF for recycled water is within the prescribed limits of Ordinance No. TSD-400 (Adopted 11/26/18) which states:

“It is the policy of the Board to set the retail rate for recycled water at no greater than 90% of the Oak Park Water Service Tier 1 potable water rate.”

The proposed \$5.39/HCF recycled water rate is 77.9% of the proposed TWSD’s Tier I potable water rate (\$6.92/HCF) effective with the January 2021 billing period. Actual savings to recycled water customers is much more significant when considering that

based on water usage, these customers would be in the Tier 3 rate if they chose to use potable water. Under this assumption the difference would be 55%. If adopted on November 23, 2020, notification will be included within the recycled water customer's monthly bill to comply with the notification requirements under applicable law.

TWSD-450 was adopted in compliance with Proposition 218 notice and protest procedures. In accordance with those procedures (and the provisions set forth in Government Code Section 53756), the District reserved the right to automatically "pass through" increases in wholesale water costs by providing affected parcel owners with mailed notice of those increases not less than 30 days from the effective date of the increase. The aforementioned mailed notice satisfies the requirements of Proposition 218 with respect to the District's adoption of the recommended pass-through rate increase.

Please note that any of the quantity rates specified in Table I are, in accordance with applicable law, subject to adjustment by the District should Calleguas adopt further increases or decreases in its potable water wholesale rates.

Please contact me at (805) 658-4621 or marknorris@triumfowsd.com if you have any questions.

Fiscal Impact

Revenue and cost neutral. These rate increases were already reflected in the FY 2020-2021 Adopted Budget

INFORMATION ON RATE CHANGES

On the January 2020 bill, there will be a recycled water rate increase of \$0.17 per hundred cubic feet (HCF) for recycled water sold. The increase is a result of the 2020 wholesale rate increases for potable water that Triunfo Water & Sanitation District purchases from Calleguas Municipal Water District and the District's need to ensure adequate funding for future recycled water capital projects and maintain the historical pricing relationship between District retail potable water rates and retail recycled water rates.
