Board Meeting of  
11/22/21 Item #12

# Potable Water Restrictions

# Potable Water Restrictions

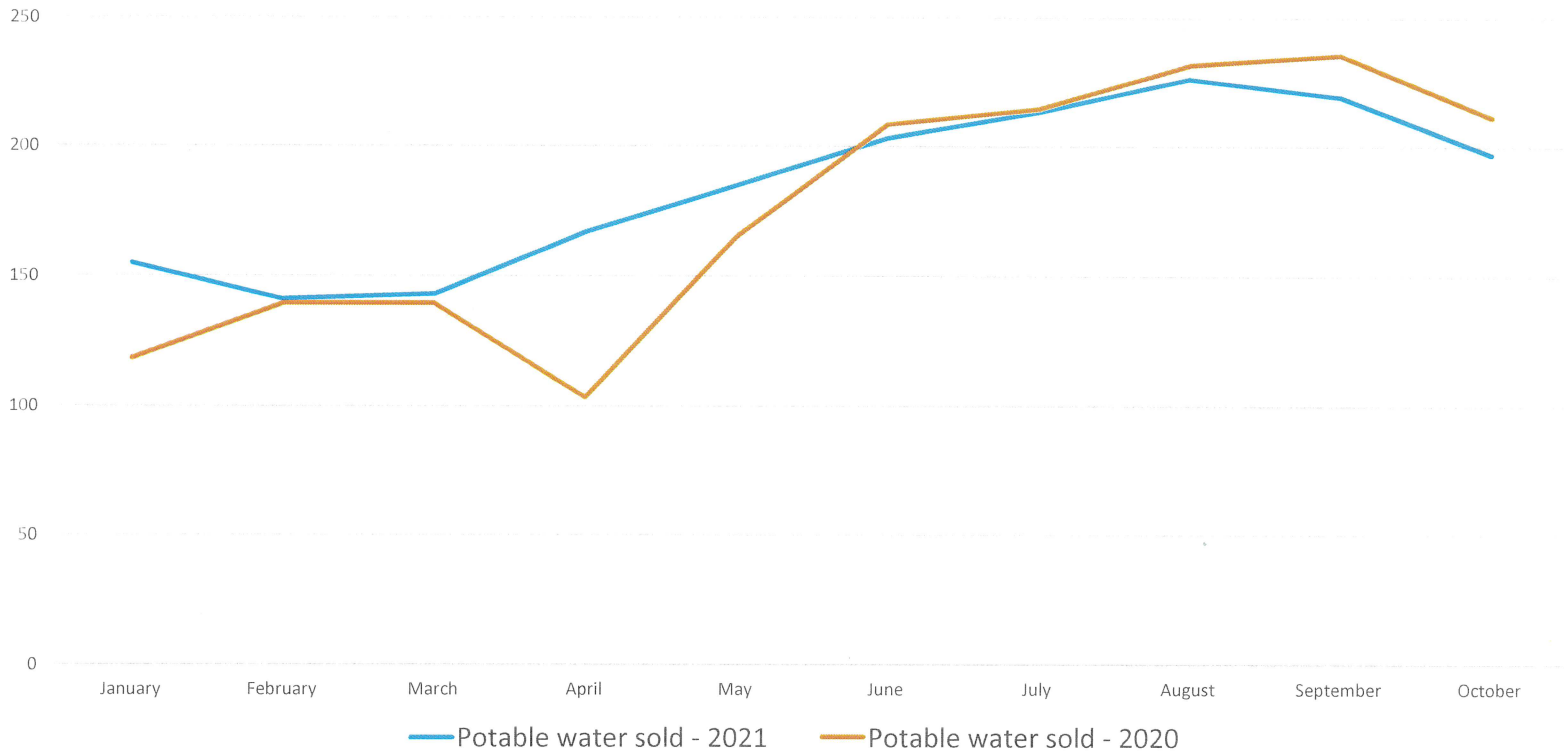

# Permanent restrictions

- Watering with potable water is prohibited between 9am-5pm
- Irrigation system watering is limited to 15 minutes
- Outdoor irrigation that causes incidental runoff is prohibited
- Washing a vehicle is prohibited unless the hose is fitted with a shut-off nozzle
- Applying potable water to driveways and sidewalks is prohibited
- Ornamental fountains must utilize a recirculating system
- Irrigation not allowed during rainfall or within 48 hours
- Food establishments may only serve drinking water when requested
- All leaks/breaks must be repaired within five days of observation and notification by the District

# Stage 1 restrictions

- Watering with potable water is limited to **3 days or 2 days** per week, depending on the season. This does not apply to low-flow drip irrigation systems or the use of hand-held buckets to water
- All leaks/breaks must be repaired within **72 hours** of observation and/or notification by the District
- Only recycled water can be used for construction site dust control
- The Board of Directors may implement other prohibited ater uses as determined by the District after notice to customers

# Recommendations

- Start the water Conservation patrols and notifying customer that are irrigation outside of the approved times
- Use reports from meter AMI system to identify customers with high usage and work with them to improve water conservation.
- Look at all potable water Irrigation meters for high usage and make sure they are following the irrigation schedule.
- Outreach to our CII customers about the permanent and stage 1 restrictions.
- Update Water shortage contingency plan and ordinance for Stage 1 to be 2 days a week for outdoor watering during the winter months.
