RESULTS OF WATER LOSS AUDIT FOR FISCAL YEAR 2022

This item is included on the agenda to provide your Board with an update on the Water Loss Audit completed for Triunfo Water & Sanitation District (District) for Fiscal Year 2022. These annual Water Loss Audits are required by Section 10608.34 of the California Water Code. They audit water supply and usage data over a defined period to assess water losses and must be validated by validators certified by the American Waterworks Association before they are submitted to the Department of Water Resources.

The audit assigns a score based upon a 1-100 scale. Over the past 5 years, the District's score has consistently been in the low 70's. This year, the validated score for the District was determined to be 83. This increase was a result of better assessment of the data, reduction in metering inaccuracies, and improved efforts by Calleguas to calibrate the meter supplying Triunfo. The audit confirmed there were 15 acre-feet of water losses, or 0.7% of the 1,976 acre-feet of water Triunfo purchased from Calleguas during Fiscal Year 2022. Further improvements in the District's score could be achieved by implementing additional meter testing, system wide pressure monitoring, water leak tracking, and meter replacement programs. At this time, due to the minimal water losses observed in Triunfo's water system, these additional programs are not recommended to be implemented.
