Board of Directors  
Triunfo Water & Sanitation District  
Ventura County, California

**RESCINDING STAGE 1 WATER SHORTAGE CONDITIONS**

This item is included on the agenda for your Board to consider rescinding the Stage 1 Water Shortage condition. On April 5, 2023, the Calleguas Municipal Water District rescinded its Stage 2 Shortage condition that had been in place since February 13, 2023, and declared there are no longer water shortage conditions in place. This followed the Metropolitan Water District's action to rescind their Emergency Water Conservation Program on March 14, 2023, and the California Department of Water Resources' announcement of a 75% State Water Project allocation for 2023. The Sierra snowpack is at its highest levels since 1995 with anticipated runoff that will further boost storage in key reservoirs and may result in further increases in the allocation in 2023.

A Stage 1 Water Shortage Condition has been in place for Triunfo Water & Sanitation District since your Board declared it on August 23, 2021. At that time, your Board called for a reduction of up to 20% in water use by customers and restricted outdoor watering to 2 days per week for November through March and 3 days per week at all other times. The District's permanent water restrictions remain in place and staff will continue to promote water conservation as a normal way of life for Triunfo customers in outreach materials and programs.

**Recommendation**

It is recommended the Board:

- A. Rescind the Stage 1 Water Shortage Condition within Triunfo Water & Sanitation District's service area, or
- B. Provide staff with alternative direction.

DAVID RYDMAN – OPERATIONS MANAGER
