How to Create Gravatar

Here is a guide with simple steps to create avatars and integrate Gravatars into your site for a more dynamic and engaging user experience.

Creating an Account

Visit the Gravatar website and then click on "Create Your Own Gravatar. Sign up with your WordPress account or create a new one.

Uploading and Managing Avatars

Upload your image up to 10 MB and customize your profile details.

2

Customizing Your Gravatar

- Open the WordPress dashboard menu and then Plugins, then "Add new".
- Find the "Basic User Avatar" plugin. Install and activate the plugin.
- Back to the dashboard, then click on "Users" and "Profile".
- Look for the "Upload Avatar".

Integrating Gravatar with WordPress

- Visit your WordPress admin page and open "Settings" and "Discussion".
- Open the Avatar Display section and then check the "Show Avatars" box.
- You can choose avatars in this section for all users.
