To the 70th Anniversary of the Great Victory (1945): Get Rid of Illusions Power!

(...) Los huesos de asesinos malheridos, los invasores rorbados cerrados, y los conquistadores fugitivos detrás de tu centella, Stalingrado. Los que humillaron la curva del Arco y las aguas del Sena han taladrado con el consentimiento del esclavo, se detuvieron en Stalingrado. Los que Praga la Bella sobre lágrimas, sobre lo enmudecido y traicionado, pasaron pisoteando sus heridas, murieron en Stalingrado. Los que en la gruta griega han escupido, la estalactita de cristal truncado y su clásico azul enardecido, ahora duermen estén, Stalingrado. Los que España quemaron y rompieron dejando el corazón encadenado de esa madre de encinos y guerreros, se pudren a tus pies, Stalingrado. Los que en Holanda, tulipanes y agua salpicaron de lodo ensangrentado y esparcieron el látigo y la espada, ahora duermen en Stalingrado. Los que en la noche blanca de Noruega con un aullido de chacal soltado quemaron esa helada primavera, enmudecieron en Stalingrado. Honor a ti por lo que el aire trae, lo que se ha de cantar y lo cantado, honor para tus madres y tus hijos y tus nietos, Stalingrado. Honor al combatiente de la bruma, honor al Comisario y al soldado, honor al cielo detrás de tu luna, honor al sol de Stalingrado. (…)
(i.e. distinguishing truth and lie) in educational systems of both West and East cultures. Information excess (either false or true) in the absence of methodology of mining from this flow information indeed necessary for the society for solving its problems, in the presence of the Internet — is equivalent to full absence of information. This circumstance for the first time raises question “life-death” to mankind. Because there is no white lie, and even the truth, when becoming reckless belief, misleads and conducts to death “zombies” enslaved by it.
It's dangerous to live being captured by illusions. This concerns as conceptions about historic past, and also conceptions about nowadays, on basis of which political course for future has been working out. II World War of 20th century and its component – the Great Patriotic War – take particular place in this problematics, and also — their global political after-effects, which still put pressure on future formation for Europe, Russia and whole mankind. Though these themes in detail can be covered only with “stout books”, but the essence of the question can be represented in several brief statements:

1. On May 9, 1945 the USSR and the USA in case of military activity sabotage by Great Britain defeated «European Union-1»3, created by Hitler under patronage of (again!) Great Britain with the aim to finally solve «Russian question» — deprivation the sovereignty of Russia, extermination of «overabundant» population, exploitation of its natural resources and «residual» population.

2. W.Churchill was not satisfied with Third Reich crush results and Europe reorganization on the basis of Yalta Conference conclusions (February 1945), and as early as May 1945 he started design of operation “Unthinkable”4 — war of Great Britain, the USA, some European states forces and Hitlerites scums (Wehrmacht formations capitulated to Britons were just disarmed and kept on serving but were not disbanded) against the USSR.

3. By this time US President F.D.Roosevelt was killed4 (hardly without participating of British Freemasonry periphery in this dirty business) because:
   - Yalta Conference conclusions didn't respond to interests of those powers, which were personified at public policy by W.Churchill;

---

2 Convoy PQ-17, betrayed by Admiralty, delaying with opening of Western Front' second-phase until June 1944 and so on.
3 Military formations from Italy, Romania, Hungary, Spain and Finland were at war with USSR. European economy acted for Third Reich needs. «Resistance» from majority of occupied European countries and from Third Reich' allies — according to its size and strength of combat actions against Nazi and collaborative regimes is disparate with Soviet partisans and resistant movement in occupied Soviet territories. After Munich agreement Poland was in fact Third Reich ally, which developed in cooperative extermination of Czechoslovakia by armies of Germany, Poland and Hungary. Polish government in exile was juridically at war state with the USSR until July 30, 1941. After USSR and polish government in exile signed a treaty of cooperation (July 30, 1941) — polish military formations were formed at USSR territory (Anders' Army). But Poland avoided Anders' Army action at Soviet German front, and the army was removed from USSR to Iran before the Stalingrad Battle. Polish People's Army was formed at USSR territory in 1943 from those Poles and Soviet citizens of polish ethnic origin, who have been evaded from entry into Ander's Army.
5 «Official explanation for F.Roosevelt' death — massive cerebral hemorrhage (stroke). However his personal doctor Dr. McIntire testified that none signs of cerebral arteries sclerosis were found during president's regular medical examinations. I think, you'll not be surprise to know that no autopsy was made.

Besides that, as soon as 1948 the book “The Strange Death of Franklin D. Roosevelt” by E. Josephson (http://catalog.hathitrust.org/Record/00046985) told details of president' death along with really sensational, yet confirmed in detail, information about president' entourage, in which hands the president was. According to Josephson, reasons for president' entourage not to allow autopsy and exposure of the body for last respects aren't subjects to doubts: according to testimony of priest, who was at Warm Springs, the president was killed with a bullet to a nape, apparently exploding, which disfigured all face after an exit from skull. Eleanor Roosevelt – First Lady of US – explained body exposure withdrawal: this supposedly “it was not in Roosevelt family tradition”. Without saying about that the president of the state isn't subject of “family tradition”, it wasn't true: Sara Roosevelt' body (president' mother) was, for example, exposed for last respects, according to her son order. Having forgotten about this statement, madame Roosevelt disproved herself in “Saturday Evening Post” magazine (February 8, 1958), when writing, that the next day after inhumation at Hyde Park her son James found in safe president' personal instructions on a case of his death: to exposure his body at the US Capitol. As she wrote, “oddly” all other president' posthumous orders, besides that one, were executed literally...” (Golikov A.A. Franklin Roosevelt. Secret of president’ death (in Russian): http://www.proza.ru/2014/01/28/2146).
and F.D.Roosevelt and J.V.Stalin since the time of their personal dialogue at Tehran Conference (1943, F.D.Roosevelt lived at USSR embassy by the invitation of J.V.Stalin) developed a certain mutual understanding for the need of solving of global and regional problems on the basis of some socialism (Soviet power) and capitalism (bourgeois democracy) convergence, which had not been provided the subsequent “cold war”, but had been threatened with destruction of bourgeois liberalism. “London Central Committee” used both bourgeois liberalism and Marxism as instruments for submission the whole world to usurious community, whose most active representatives run their business from London City.

4. W.Churchill's Sinews of Peace (March 5, 1946 г.)⁶ — message from higher bros-freemasons to lower bros-freemasons from USA, owing to what it became defining for the statehood of the USA policy until current moment and for further perspective.

5. «SS European Charter» (1944)⁷ B was the basis for «European Union-2» (Maastricht Treaty 1992, effective since November 1, 1993), so it defines domestic policy for states-members:

- on announcement, publicly defiantly — bourgeois liberalism and social democracy, as the compelled observance of "decencies" after defeat of «European Union-1», created by Hitler;
- and by default — long-term strategic course on revival of national socialism in every of states-members with the aim of liquidation of capitalism (which is based on bourgeois liberalism and liberal market-based economical model).

Therefore watchword “Drang nach Osten!” again dominates (now – by default, but not publicly as in Third Reich) in foreign policy of “European Union-2” (as coalition formation of the states, no one of which possesses completeness of the sovereignty – because all of them are conceptually powerless (reasons for this: (1) they are overwhelmed by Biblical globalization concept, and (2) freemasonry controls their government structures)). At the same time Jews have been admitting (yet) as full Europeans in “European Union-2”. And Muslims (including those living outside “EU-2”) and natives from former colonies of “great European powers” living in “EU-2” regardless of their confession have been appointed to the role of “defective Jews of Third Reich and European Union-1”. European Jews and natives from former USSR republics —

---

as carriers of unacceptable for national socialism ideas of liberalism and so-called “internationalism” ideas – can be attached in perspective to “defective” category.

6. The celebrating of the USSR and the USA victory over “European Union-1” is absence in todolists of “EU-2” masters and heads of its members, because (1) for them its – crush of one of their projects celebrating, and (2) besides that anti-Russian Nazi regimes corporation at “European Union-2” is more preferable for them. According with the called above reasons “EU-2” management pretends not to see marches-pasts of former SS-mans and their successors in Baltic states and Nazi rushes of post-Euromaidan Kiev regime, and a number of Western countries leaders (who were invited to Moscow for the 70th anniversary of Great Victory celebration) under various pretext declared that they'll celebrate their own victory at another place.

7. The tendency for identification of V.V.Putin with A.Hitler and Russia with Third Reich respectively is dominating in “EU-2”-members and USA propaganda in view of Russia' relation to Nazi coup in Ukraine, which was made with participation of intelligence agencies from number of European (“EU-2”) countries and the USA (scenarios development, activists training, special forces secret participation in provocations and the like).

8. The company on re-writing of history of Second World War (WWII) and history of Russia-USSR-Russia and on propaganda of new version of history with mass-media and education system was started. The essence of history rethinking by West:

- the USSR and Third Reich — are equally totalitarian, fascist regimes, which had been threaten for all mankind freedom.
- J.Stalin with his aggressive aspirations and misanthropy prepared so-called “liberation campaign” of Red Army to Europe.
- A.Hitler (though he wasn't right in his relations to Jews, Poland, Czechoslovakia, Austria and other European countries occupied by Third Reich) was compelled to start “preventive war” against the USSR, because of J.Stalin' hypocritical policy and preparation of Red Army “liberation campaign” to Europe.
- There was no “European Union-1”, but there were different European countries occupied by Third Reich. Resistance (supported by Great Britain) actively functioned in these countries.
- At Third Reich (and also at SS) there was its own anti-totalitarian underground. “SS European Charter” (1944) appeared as a result of its activity. Therefore its not correct to “paint all SS-mans with black color”: there were worthy people, who became hostages of the circumstances created by Hitler and Stalin.
- USA and Great Britain made a decisive contribution to defeating of Third Reich and releasing European nations from hitlerism by crushing Hitlerite strategy of world supremacy gain with battles in Africa (operations against Rommel' army), Allied invasion of Italy (1943), Battle of Normandy (1944), rout of Japan (global-strategic Reich' ally) at Pacific.
- There was so-called “Eastern Front”, but it has exclusively “tactical” value: its value is represented big because of its huge extent, but it wasn't globally strategically critic, because “Eastern Front” passed only on USSR territory and until the end of 1944 was on considerable removal from Third Reich territory, without making any impact on its life (men in the street are not obligatory to know that “Eastern Front” provided 80% Wehrmacht irrecoverable attrition). Soviet propaganda unfairly inflated its value along with belittling of the USSR anti-Hitlerite coalition allies role. Nowadays V.V.Putin's regime pursues the same policy of inflating “Eastern Front” value, belittling Allies role and history fabrication: see what N.V.Starikov, A.G.Dugin, S.E.Kurginyan, A.A.Prokhanov and

---

8 V.Suvorov (real name V.B.Rezun; “Icebreaker”, “Day “M””) and I.Bunich (“Operatsia Groza” - “Operation Thunderstorm”) convincingly showed it to man in the street (ignorant in aspect of history knowledge in completeness and details and incapable to think globally politically). VP USSR' judgment of these books see at analytical letter “About “Icebreaker” by V.B.Rezun-Suvorov”» (in Russian) (volume “Intellectual position” №1, 1996)
other ideologists and analysts of “patriotic” sense (nuts about world conspiracy theories) tell and write about Great Britain' role in the history.

- Only British air forces and diversionary units made strategic impact directly on Third Reich (while at “Eastern Front” there were combats of tactical value). US strategic air force joined this activity at the final stage of war. And it was critic factor, because exactly diversionary units destroyed heavy water factory in Norway (occupied by Third Reich). It didn't allow Hitler to plaster with nuclear weapon on his enemies including USSR. It's also necessary not to forget about lend-lease (supply from Great Britain and the USA to the USSR with food, oil and materiel), without which USSR would be crushed. “The Battle for the Atlantic (1939-1945) – won by US and British fleets – gets special role in the light of such lend-lease importance. Because deliveries of manifold products by foremost British and American economies to the USSR under lend-lease would be impossible without this victory. But Russians, as always, are unthankful, though the contribution of Russians to victory over Third Reich is insignificant, because there were no any “Russian fronts” in Red Army, but “Ukrainian”, “Belorussian”, “Baltic”.

9. Liberals from Russia will announce with joy, that provisions stated in theses N7 and N8 — honest political-historical truth. But honest political-historical truth is that British Empire, Third Reich and controlled by it “European Union-1” worked in the past for biblical project of mankind enslavement on behalf of God. Nowadays “Europea Union-2”, the USA and “West as a whole” — smashed by biblical project in its liberal-bourgeois and Nazi versions — too work for its advance to Earth' regions not controlled by biblical project masters and sachems: first of all, to Russia (in the person of its periphery with liberal way of thinking) and to countries with historically established Islam in its Sunni and Shiite versions. The so-called ISIS (or ISIL) — instrument, created by the USA with the aim: not allow historically established Islam in these countries to rise to realize Koranic Islam. According to these goals long-term anti-Koranic strategy was created and is still realizing by biblical project sachems⁹.

Rus'-Russia-USSR-Russia civilization — has its own mission, which is unacceptable for sachems and masters of Biblical project. So they lie and get furious.
