

Technical Specification Limpet V2

Features and Benefits

Limpet is an "On Tool" personal vibration monitor device that calculates in "real" time accumulate points based on the HSE tool exposure point system to both EAV and ELV levels.

Wirelessly connects to any Android device, Android 5 and above.

Powered by "Coin" cell battery so no need for recharging base stations and data upload points.

RFID enable to give the added benefit of tool and asset tracking at no extra cost.

Small profile allowing fitting to the smallest of tools and equipment.

Technical Specification

Limpet body ABS

Limpet Holder ABS

RFID 13.56 MHz (NFC ISO 14443.)

Battery CR2032 3V Lithium coin cell

Battery life : 25 days of use, based on 6 hours per day

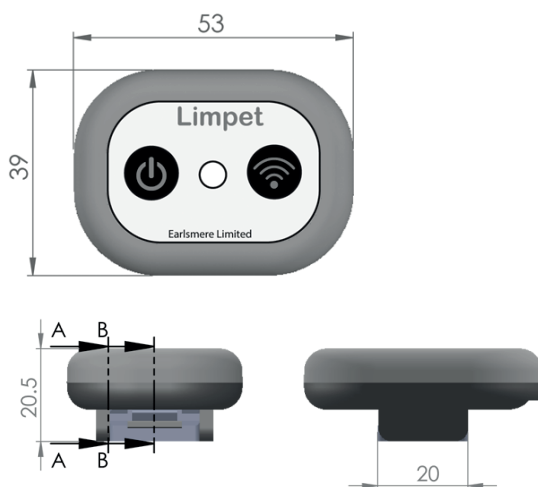

Connectivity wireless

LED (Traffic Light) alerts

Memory 150 hours tool usage

IP65 (Dust and water spray)

Limpet Dimensions (mm)

Limpet Holder Dimensions (mm)
