I want to see my town improved and I'm sorry but I can't see how city council member Tim. Roney is on the citizens police advisory committee. That is a laughable decision by the council. I don't understand the logic behind it. She must be the most unqualified person on Council to ride in that position. Um, you know, this was this committee was designed to hack unity and police have the community in police work together and with her vote against protection for the lives of our policemen vote against the grant that would find them vests. To protect them that had nothing to do with anything else nothing to do with guns. Nothing to do with arming them in any way just to protect and she voted against that I found that unforgivable the email off your credit she wrote back, but dodged the question. She loves it all in with. We just need to, you know, change our police. There's no reason you would ever vote against protecting someone's life may not in this community. Anyway, and I would ask that kamrani immediately be removed from the citizens police advisory committee. I don't know who would vote against that and shame on you if you do home, but anyway, I hope to see you guys do better. We're all pulling for you, and I hope you'll take this seriously. Thank you.</p>	Open Comment
