GC Chatbot

The GC EduBot supports and help students/parent and teachers to appropriately guide student in selecting relevant subject after junior secondary or while applying to university

Hello

Gender: Female; Subject: Arts; Class: JSS 3. Results: English Language D7, Mathematics C4, Social Studies B3, Business Studies C6

It looks you are doing great in Social Studies and Mathematics How often can you complete what you set out to do?

Most of the time

Sounds good. Do you concentrate during class? And If interrupted during leasson, can you quickly concentrated again?

Yes, I do concentrate during classes. But I don't like being interrupted during lesson as it makes me lose focus

Do you feel lonely? And how often do you feel secure at school?

I am always with my friends, studying or chatting. No one ullies me at school.

Do you often study with friends? How do you try to understand your friends feelings when they are sad or upset?

Yes, I'm very good with studying with friends. When my friends are upset I try to give them time to calm down and possibly help when necessary.

Based on the information you provided in the chatting session, you will be suitable for subject such as commerce, Business Studies or accounting and other related related subjects. Also, your response to the personality test indicated that the you are emotionally, consciously, and agreeably stable. study has shown positive correlation between those personality and academic performance. I advise you to try to maintain those personality as you choose your course of study and future career.
