01

Background Story

We met in 2012 using online dating. We feel extremely lucky to have found each other as it feels it was always meant to be. Fast forward one year later and we became engaged. Mike was serving in the CT Air National Guard (US Air Force) while also attending college. Samantha was already working full time in various professional positions. After getting married in 2015 at the Beardsley Zoo, we then moved into a 3 Bedroom 2 Bath Condo in Connecticut where we call home with our kitties. We have ample room to expand our family beyond our furbabies. Mike is a high school technology education teacher and Samantha is a Medical Assistant. We go on frequent adventures including our two favorites, Disney and Martha's Vineyard.

02

Our Philosophies

We believe every child should have a loving home to grow and become their own. We do not think we should choose what they decide to be or believe in but we would guide them with examples of how we live our lives doing the right thing, being respectful, having integrity, and living life to the fullest. We hope to welcome a little girl or two to our family. You can trust that they will be raised right and we will do everything in our power to help them reach their dreams if you want to stay in their lives, even better. We welcome open or closed situations. This is about the child. We will always do what is best for them.

03

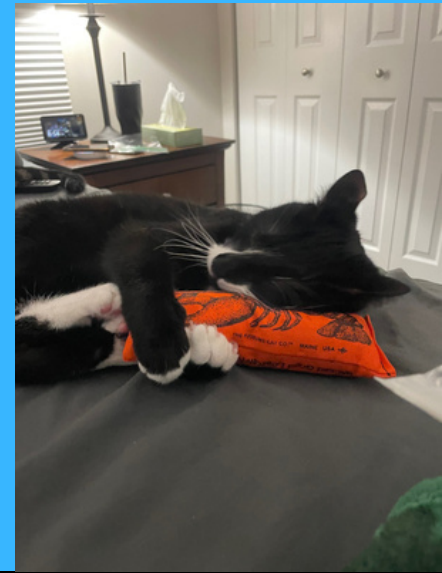

Our Homes

We have two places we call home. The top two photos are a few shots from our full-time home in Connecticut. It's a 3-4 Bedroom Condo. We have two baths and created a little movie/game area downstairs with surround sound to watch movies or play games. There are two bedrooms connected to this and a bath for future family members.

Upstairs we have the living/dining rooms, master bedroom and an office/future nursery, and bathroom/laundry room.

On the bottom are a few shots from our home away from home. A beachfront condo unit that is part of a 30-unit complex on the beach of Martha's Vineyard. This is our happy place. A short escape where we can take a quick trip anytime and make memories for a lifetime. We take extended trips here every summer and random visits throughout the year. It's a magical place.

04

Our Pets

You have probably noticed our amazing two cats Arnie (Tuxedo black and white) and Elliott throughout our profile. When you adopt animals you should do anything to keep them happy and healthy. That is what we do. We spoil and take care of our furbabies. They are the world to us. We also have two turtles that were rescued. Lucky and Little Gary. They were the size of a nickel when we brought them home. Lucky had an injured leg and Little Gary has a abnormal shell bottom. But together they enjoy their days in their big tank without worrying about threats. We treat them with the same love and care as any other pet we have had growing up.

We support you!

Our Advenutes

We love to live life and go on new and old adventures whether that be a trip to Disney World, Martha's Vineyard, a local drive to a museum, a trip to NYC, kayaking, riding our motorcycle, or another exciting adventure.

- Beach
- Arcade
- Movies
- Amusement Parks
- Kayaking
- Road Trips
- Zoo's
- Take Chances!
