and
Mike

About us

Mike is a laboratory manager at an industrial gas company. He is hardworking, funny, and dependable. He enjoys barbecuing and working around the house. Christina is a kindhearted and ambitious golf teaching professional, and her favorite students are her junior golfers. It did not take long to realize we have so many common interests, like sports, music, and cars. We are both easygoing and love to travel, spend time with family and friends, and golf. When we are not golfing, we are cooking dinner together or watching our favorite sports teams. We are big sports fans, but we are fans of rival teams in every sport. This makes for even more entertaining sports seasons.

Our home & pets

We live in a four-bedroom home on a quiet cul-de-sac in Pennsylvania with our two spoiled dogs and pampered cat, surrounded by neighbors who have become family to us. The backyard has views of rolling hills and mountains. Our property borders a grass field that is perfect for playing catch with the dogs, learning how to throw a frisbee, or backyard camping. We look forward to experiencing minor league baseball and ice hockey at our two local professional venues and hopefully even watching your child participate in youth sports in our local youth organizations. We also look forward to frequenting the many local downtown districts and experiencing events like Christmas tree lightings, parades, and arts and music festivals.

What led us to adoption

We both have always imagined one day having children to love unconditionally and share our life experiences with. Unfortunately, having biological children is not an option, but that has not discouraged us. While we discussed all the possible ways to start a family, we were both instinctively drawn to the idea of adoption. We love the idea of sharing our love with an adopted child.

our family and traditions

One of the qualities we value in each other is that we are both very family oriented and come from big, caring families. We have close relationships with our parents, siblings, nieces, and nephews. We are so fortunate to have our parents and siblings all within thirty minutes of our house. Our families have some amazing traditions we cannot wait to share with your child—traditions like spending Easter at the beach, making pizzas on Christmas Eve, and birthday parties. We are excited to take your baby on trips to Disney World or day trips to the beach and to spend time at our vacation home in the Carolinas.

Our fathers are excited to have a new fishing partner and golf buddy. Our mothers look forward to spoiling your baby in every way they can. We imagine our siblings showing your child how to play practical jokes on other family members. Our families are just as excited as we are about the possibility of expanding our family with the addition of your baby.

mother

To A Loving Mother,

Thank you for considering us as the adoptive parents of your baby. We understand how difficult this decision must be, and we respect you immensely for it. You are incredibly strong and kind hearted to consider adoption. Should you choose us, your child would be warmly welcomed into our family and forever surrounded by love and support.

We look forward to providing your baby with an amazing life filled with exploration, happiness, and unconditional love while sharing current family traditions as well as making new traditions along the way. Your child will experience family vacations and holidays spent with friends and family. We are excited to watch your child as they experience new things and develop their own personality and passions. We will strive to support and encourage them along the way in every way we can while also keeping you updated however often you would like to be.

We cannot wait to fill our home with the sounds of laughter and happiness and our hearts with unconditional love for your child. We are hopeful and excited about the possibility of welcoming a baby into our lives and extremely thankful for your consideration of us as adoptive parents for your child. We will keep you and your baby in our thoughts and prayers, and we wish you an easy and healthy pregnancy!

With Love,

Mike and Christina
