

Bulletin #6
2022 Rally in the 100 Acre Wood
March 15, 2022

To: All Competitors

Subject: Clarification of RallySafe virtual chicanes

The rally will be using the virtual chicane feature of RallySafe this year. The chicane locations & speed are noted in the route book.

The Supplementary Regulations are revised as follows: Addition of section 13.11

13.11 Virtual Chicane

- 13.11.1 The virtual chicane target speed is 25mph
- 13.11.2 As you approach the virtual chicane the RallySafe unit will count down the distance to the start of the chicane and remind you of the target speed. The virtual chicane zone will be preceded by 300, 200, and 100 meter boards. The beginning of the zone will be indicated by a VC Start board. Competitors must momentarily slow down to at or below the target speed anywhere inside the virtual chicane zone. The RallySafe unit will acknowledge that the target speed has been reached. The end of the virtual chicane zone will be indicated by a VC End board.
- 13.11.3 Should the location of any virtual chicane sign not match what is indicated on the RallySafe unit, the RallySafe unit will take precedence.
- 13.11.4 The RallySafe system is a judge of fact with regards to the speed within the virtual chicane zone.

Regards,
John Huebbe
Clerk of the Course
