Art. 12.7 TIMECARDS

CONTROL PROCEDURES AND TIME CARD HANDLING

Time controls

- The check-in procedure begins at the moment as stipulated on the European Historic Rally Championship Regulations 44.2.1.
- The check-in time corresponds to the moment at which the co-driver shows their Time Card to the timekeeper through the side window. (referring to European Historic Rally Championship Regulations Art. 44.2.3).
- The appropriate timekeeper will then enter the actual Time Card showing time on their timing tablet and write it on the check sheet.
- Time marshals will then show the recorded check-in time and, in case of a Time Control followed by a special stage, the provisional special stage start time to the co-driver. The co-driver shall then enter this time on their Time Card.

Special stage start

- At the SS start line, the timekeeper shows an actual start time for the crew (co-driver) on their check sheet.
- This time will be marked as an actual start time for the Special Stage on the Time Card by the co-driver.

Special stage stop point

- The timekeeper at the stop point will show the finish time (time of the day: hour, minute, second, tenth of a second) and the calculated stage time to the crew (co-driver).
- The co-driver shall mark this time on their Time Card.

Regrouping controls

- There is no need to hand in the Time Card used for the Section concerned.
- For regroupings during a day, the crews shall themselves mark their re-start time from the regroup as instructed by the timing marshal on their new Time Card for the following Section of that day.
