The Stewards, having received a report from the FIA Technical Delegate (Document 6.7), summoned the representative of the above competitor, and also the driver and the codriver, have considered the following matter and determine the following:

**Facts:**

At the final scrutineering, it appears that the installed extinguisher system of the car #403 was empty. The minimum weight of the bottle of this installed extinguisher system must be 5,4 kg (+/- 5%) and it was found a weight of only 1,868 kg.:

**Offence:**

Breach of ISC Appendix J Article 283.7.

**Decision:**

**Formal Reprimand to driver Aron Domzala**

**Reason:**

A hearing was held on Wednesday, 13 October 2021 at 17:40 h. The Stewards heard the competitor's representatives as well the crew Mr. Aron DOMZALA and Rafal MARTON.

The driver declared that he was so excited after the finish of the SS5 and 50 meters after the Stop control zone he stopped to wait for the times of other competitors and he left the helmet with the HANS system and the gloves in the middle tunnel of the car, where the control box of the fire extinguisher system is located, activating the fire extinguisher.

When we asked the FIA Technical Delegate, he confirmed that it would be possible that the fire extinguisher system could be triggered by putting some items over the control box.

As stipulated in Article 283.7.1.1 of Appendix J to the 2021 FIA International Sporting Code, the system must be used in accordance of the manufacturer's instructions and with Technical List n°52.

The Stewards concluded that the competitor, by mistake he broke the safety regulation of ISC Appendix J Art. 283-7. The Stewards decision was made based on the FIA ISC Art. 11.9.1; ISC Art. 11.9.3.a, ISC Art. 11.9.3.f and ISC Art. 12.4.1.b.

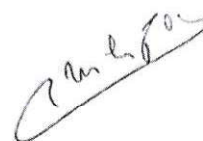

The Competitor is reminded of his right to appeal certain decisions of the stewards, in accordance with Article 15 of the FIA International Sporting Code and Article 9.1.1. of the FIA Judicial and Disciplinary Rules, within the applicable time limits.
