On behalf of the Organizing Committee and all the team worked in the 2022 Rally Jameel, I would like to thank you all for being part of the event, and putting aside your Families, Work and social commitments, and accepting the challenge, the hard times, and the joy of being in the desert driving, navigating, and staying awake long hours at night to prepare your charts for the next day.

Unfortunately everything has to come to an end, now and as we finished the 2022 Jameel Rally, 1st Woman – Jameelat – Navigation Rally in the Kingdom of Saudi Arabia and the region, you should be proud of being part of the 1st Edition of Rally Jameel, as much as I did.

I know that I didn't meet all your expectations during the Rally, it is because I was also Stressed 100 times more that you were, or even more because all the time I had to keep in my mind the safety of all the 35 Teams participated in the rally.

Having seen that all the Jameelat participated in the rally arrived safe to the end of Leg 3 was a great achievement, - AL HAMDULELLAH – Thank to God, because it was my main concern while during the preparation of the Rally.

Some of you said that I was a bit harsh in applying the penalties, it is a fact cause rules and regulations were put to be followed. Otherwise you cannot manage such a lovely event and no way would you remember me if you didn't go through some hard times... But always look at the bright side of anything you do. Be positive and learn from your mistakes to be stronger next time.

For All the Jameelat, please accept my apologies, for any thing that came out from me or any of the official during the Rally, and be sure that I will always be available to help, assist, advice in any future Challenge.

The best thing that happened to me is that I gained lots of dear Friends in 2022 rally Jameel, and I hope we will stay in touch always.

Bellow you will find my contact details, please don't hesitate to contact me. In case you have any query about the rally, results penalties calculations, which will help you to put a better strategy for your future events.
