Document N° 3.10

From: The Clerk of the Course

Date: 12.02.2021

Time: 17:40

To: Competitor #215 Ricardo Ramilo
All competitors
Timekeeping

The CoC received two reports from the timekeepers of the TC 2A and from the ones at the Start of SS3, which was immediately after.

In the report of the timekeepers at TC 2A, they declare that competitor #215 entered the control zone at 9h45'13" by crossing the yellow panels before the TC, 3 minutes before his scheduled time (At 9h48'). As the competitor realized his mistake he stopped only 40 cm after crossing the yellow panels.

Finally, the competitor drove to the red panel and handed out the time card at his scheduled minute (9h48'01").

In the second report of the timekeepers at the following start of SS3, they state that the competitor started 3 minutes before his scheduled time (Actual starting time, 9h50'). Again, the competitor realized that he did a mistake and stopped only 5 meters after the Start Line.

Then he reversed back to the Start Line, and as he forgot to connect the 4WD transmission gear, he switched from 2WD to 4WD.

Finally, at 9h53' the competitor took the start of the SS3

The CoC consider that the competitor did a false start, and his time at the SS3 will start counting from his 1st start on the SS 3 (Real Start time 9h50')
