OPENING NOTES

Landscapes and scenarios quite different from what have been seen so far. Less sand, no dunes, but not for that reason easier to handle. Harder ground with some unexpected stone presence. Attention to open areas with a multitude of tracks.

BRIEFING NOTES

- All the stage runs through very similar surface.
- Combination of gravel and sandy tracks with many crossings and parallel tracks in open areas.
- Dust can appear in some of the gravel tracks, especially after PC 3 (km87), and also stones can be located on the sides on this kind of ground.
- Attention also at the many valley changes, face well the course to follow
- Attention 5 PC passing.
