In order to support the COVID safe protocols, SAS have implemented a back-up confirmation system for co-drivers to use to support their check-in procedure at time controls.

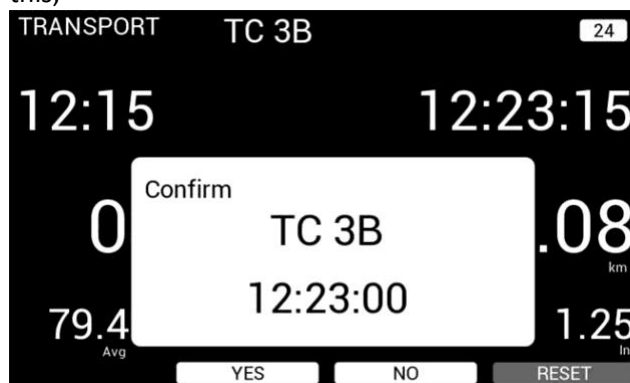

THE SYSTEM DOES NOT REPLACE THE OFFICIAL CHECK-IN PROCESS – IT IS INTENDED AS A BACK-UP FOR CO-DRIVERS IN CASE OF ANY ISSUE. THE USE OF THIS PROCEDURE IS COMPLETELY VOLUNTARY.

This is how the system is used:

On Arrival at the control and once the car becomes stationary, the Screen will change to this;

If you Press 'Check-in' using the button below the screen, the screen changes to this;

If you are happy press **YES**. If you do nothing and the minute ticks over, you have to go back to Step 1.

The system is fitted in all cars on the event – **IT IS NOT COMPULSORY** – it is intended as a test, and we would ask all P1s to use this to test how it works. Other crews can use it, but it does NOT have any regulatory status – it is a 1st step on a longer journey.

If you have any questions please contact the FIA Sporting Delegate, Timo Rautiainen (trautiainen@fia.com) and he will arrange for a person to answer questions and give a tutorial.

Horácio Rodrigues
 Clerk of the Course
