## 2. HIGHWAY TOOLS

The 'Via Verde Visitors' is a temporary electronic device designed for use on national soil in vehicles with foreign plates, which facilitates the payment of tolls on the nation's motorways.

In order to take advantage of the 'Via Verde Visitors', all you need is an international Credit Card issued by a foreign entity that is valid and recognized by Via Verde Portugal.

For further information concerning 'Via Verde Visitors' please consult [www.viaverde.pt/Visitors](http://www.viaverde.pt/Visitors)

Along the itinerary of the rally several sections of highway equipped with 'automatic electronic device tolls' will be used. For this purpose, cars must have installed a special (tag) which enables identifying the place and time of use of a given facility by establishing a connection with the antenna installed on the trackside.

To whom it may concern, ACP has for the competitors two "Packages" for the automated Via Verde tools in highways that includes the electronic device and the payment of tolls on the motorways:

- "Class 1 Package" with a total cost of 90 euros.**
- "Class 2 Package", with a total cost of 150 euros.**
