Version: 1

To: All Attendee

Date:28.08.2021

PROCEDURE | Entry to the Azores

Trips to the Azores Islands

A participant or spectator of an international team who wants to participate in the Azores Rallye can only enter the Azores in compliance with the provisions of the health authority:

Source: Azores.gov

1.1 TRIPS WITH COVID19 DIGITAL CERTIFICATE OF VACCINATION OR RECOVERY

All passengers traveling to, or within the Azores, who are holders of a valid EU COVID Digital VACCINATION Certificate, that is, 14 days after the date of full vaccination, already issued by the health authorities of each European country, they do not need to perform screening tests for SARS-CoV-2 infection.

All Portuguese citizens can request the issuance of the Digital Certificate of VACCINATION OR RECOVERY, through the SNS24 portal, <http://sns24.gov.pt>. European foreign citizens should obtain more information from their national health authority.

In the case of the Digital Certificate of RECOVERY, these are valid for 180 days after recovery.

1.2. TRAVEL WITH COVID19 TEST DIGITAL CERTIFICATE

All passengers can travel to or within the Azores, being holders of the Digital TEST Certificate, already issued by the health authorities of each European country.

For the issuance of the Digital TEST Certificate within 72 hours before the trip, they can carry out the screening test in a network of laboratories agreed with the Regional Government of the Azores, throughout the national territory. All

tests carried out during trips to the Azores in one of the agreed laboratories are paid for by the Regional Government of the Azores.

If the result is negative, the issuance of the Green Digital Test Certificate must be requested through the SNS24 portal, <http://sns24.gov.pt> , or, in the case of foreign citizens, through your national health authority. Before the start of the trip, the trip must be registered, together with the certificate, on the MySafeAzores platform (<http://mysafeazores.com>) for the anticipated validation of the submitted documentation.

1.3. TRAVEL WITHOUT THE COVID19 EU DIGITAL CERTIFICATE

Passengers who intend to travel to the Azores islands, without COVID19 Digital Certificate, by air or sea, and who come from areas considered by the World Health Organization as active community transmission zones or with active transmission chains of the SARS-virus CoV-2, are required to carry out a test upon arrival on the island, unless they present proof of a certificate issued by an accredited laboratory, nationally or internationally, attesting to the performance of a screening test to SARS-CoV-2, carried out by the RT methodology -PCR, within 72 hours before the departure of the flight or departure of the vessel.

All tests carried out during trips to the Azores in one of the agreed laboratories are paid for by the

Regional Government of the Azores.

If your result is positive, do not go to the airport and contact the health authorities in your area of residence.

If the result is negative, the trip must be registered on the MySafeAzores platform (<https://mysafeazores.com>) to allow faster control on arrival in the Azores.

COVID-19 Test Certificate

The certificate of the test carried out must, necessarily, contain the following elements:

- a) Passenger identification;
- b) Name of the accredited laboratory where it was carried out, with mention of the respective certification;
- c) Reference to the use of the RT-PCR methodology;
- d) Date of completion of the test;
- e) Test result as "negative".

Traveling to the Azores Islands does not dispense with reading the regulatory guidelines of the Health Authority published on the official website of the Government of the Azores.
