Subject: STEWARDS COMMUNICATION NO. 2 Document NO: 2.2

From: The Stewards

To: All competitors

The Stewards remind the competitors of the regulations in force regarding fire extinguishing systems.

The fire extinguisher system is a major safety item to protect the crew in case of fire in the car. It is essential for the driver's safety and safety is one of the major concern by the FIA. Safety remains a key challenge and the FIA committed to do everything possible to protect, among others, the drivers.

The system must be used in accordance with the manufacturer's instructions and with Technical Lists No 16 or No 52. Article 253-7.2 of Appendix J of the 2021 FIA International Sporting Code does not specify when the system can be switched on or switched off. For this reason, it must always be active (system armed) during the rally. **During the rally means that the system must be activated when leaving the service park, on road sections, on special stages and in Parc Ferme.**

The scrutineers will be in charge to check the status of the fire extinguishing systems during the rally and report any infringements to the Stewards.
