Knjižica o cepljenju vsebuje pomembne zdravstvene podatke, zato jo skrbno hranite!

Poskrbite, da boste redno cepljeni!

Po cepljenju nastopi zaščita proti boleznim, ki jo z vsakim ponovnim cepljenjem še podaljšujemo. Vsak podatek o cepljenju je dragocen in potreben zaradi odločitve o nadaljnjem cepljenju.

Preverite, ali so vam cepljenja vpisali v knjižico.

Neželeni učinki po cepljenju so običajno blagi. Če pa se pojavijo, se posvetujte z zdravnikom, ki vas je cepil.

Knjižico je pripravil NIJZ v skladu s Pravilnikom o potrilih, vodenju evidenc in zagotavljanju podatkov o cepljenju, neželenih učinkih po cepljenju in zdravstvenih napakah pri cepljenju. (Ur. l. RS, št. 24/2017).
