Approach and Activities

Next Steps

What is the BLN DQU?

Goal

To improve data quality and use through collaborative peer learning.

Collaborative

Several GAVI-supported African countries working together as peers to improve DQU

Financing

Currently financed by GAVI – SFA.

Goal

Increased equity and coverage of immunization services in Gavi-supported countries.

- Strengthen country leadership and data management capacity to identify and address gaps.
- Create greater access to state-of-the-art information to support and advocate for interventions, tools, and promising practices

Objectives

- Provide opportunities for country EPI programs and ICT leaders to connect with and learn from peers in other African countries, and beyond.
- Address specific challenges in immunization information systems and data management.
- Build knowledge and skills on strategies for improving data quality and use.

Objectives

- Identify common interventions for immunization programs that will be tested in select countries, and packaged for adaptation/adoption by members.
- Catalyze an African-led community of practice of peers facing similar challenges to motivate and support one another, while scaling up solutions.

Objectives

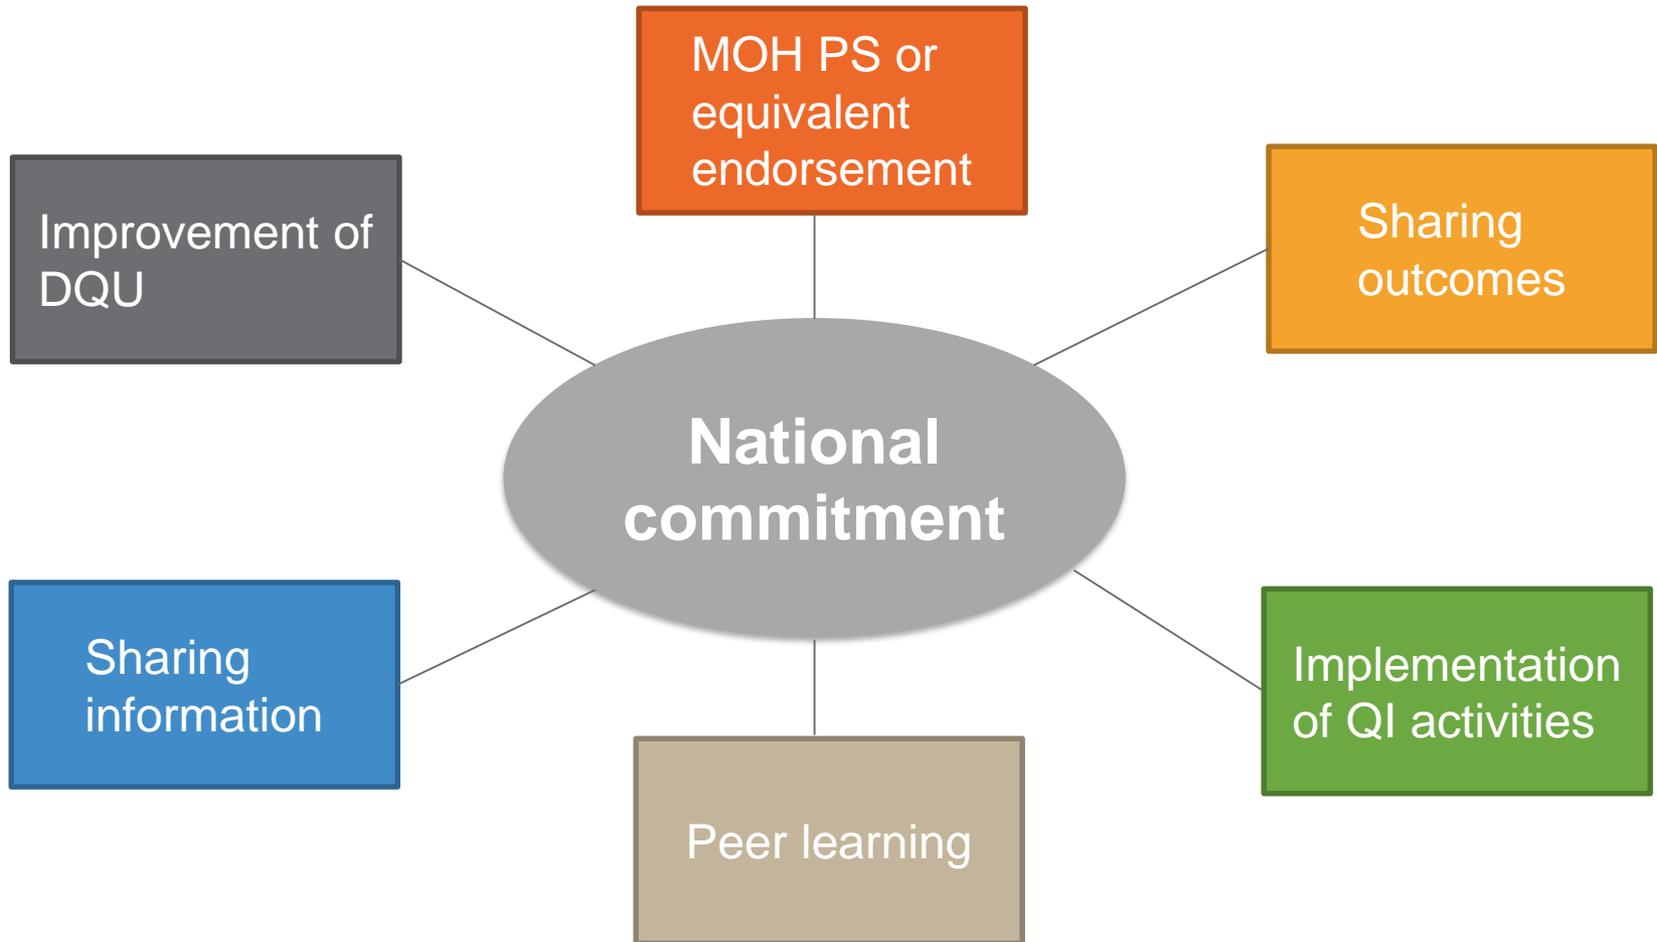

- Collaborate with other initiatives and networks to support immunization systems.
- Document and disseminate important lessons and best practices from the implementation and monitoring of immunization activities.

JOINT
LEARNING
NETWORK
For Universal Health Coverage

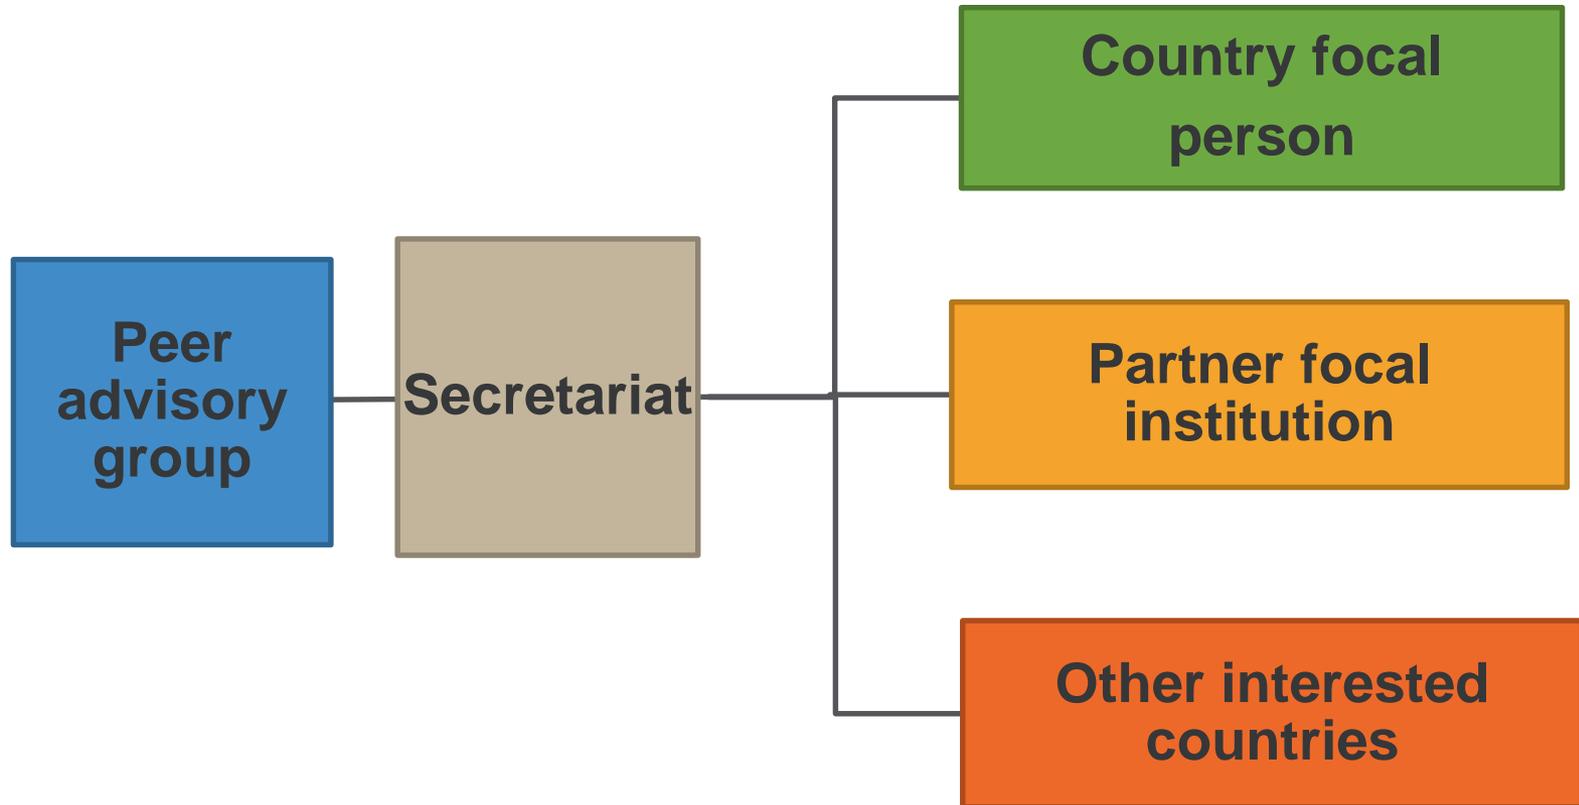

Requirements for participation

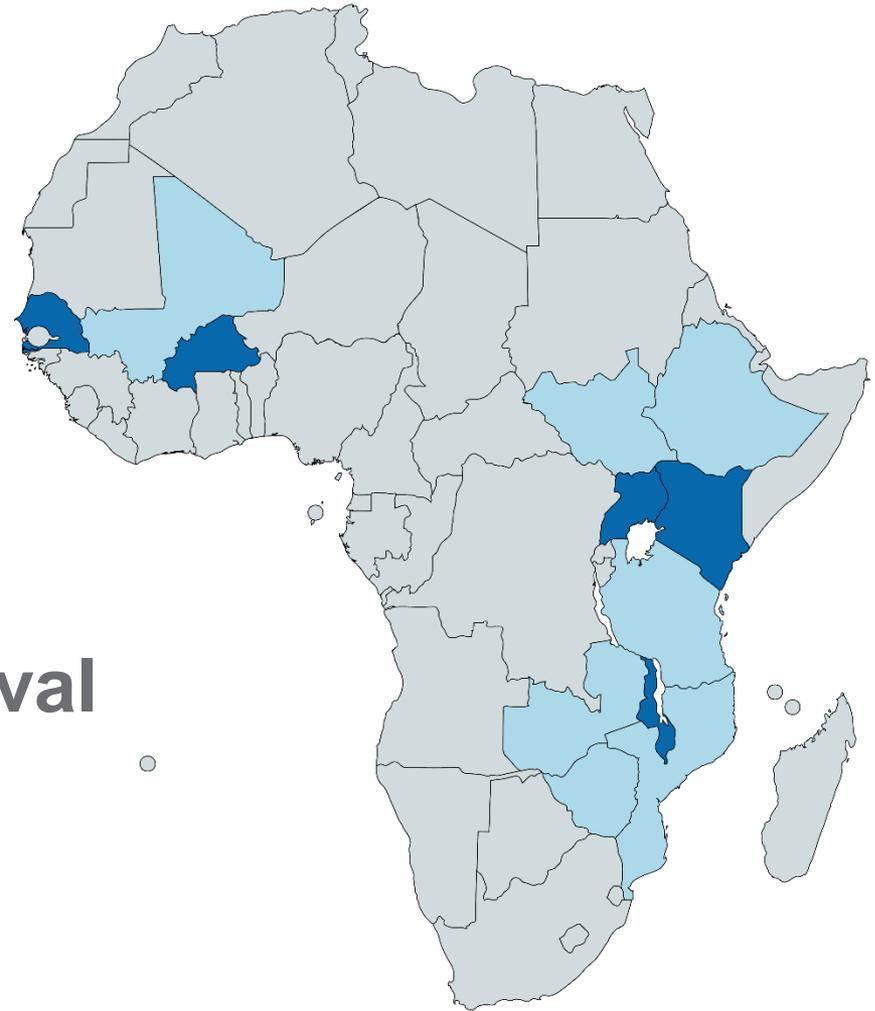

Structure of the DQU Collaborative

Current membership

-  **5 confirmed**
-  **7 finalizing approval**

BID INITIATIVE

Better data. Better decisions. Better health.

Current membership

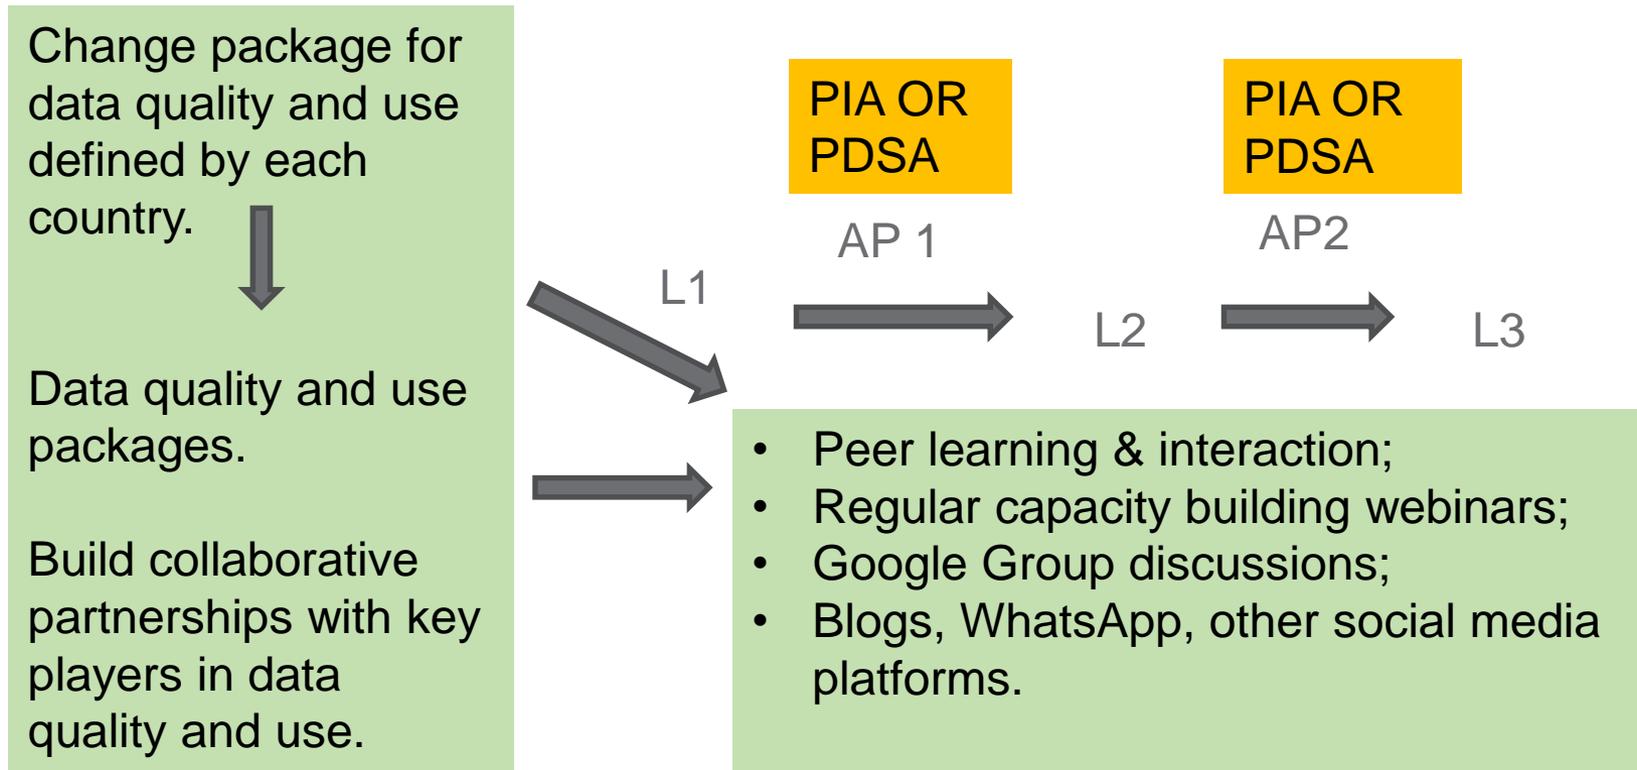

5 confirmed

General approach

Strategic approach

The DQU will work in collaboration with other players in the field of data quality improvement and use.

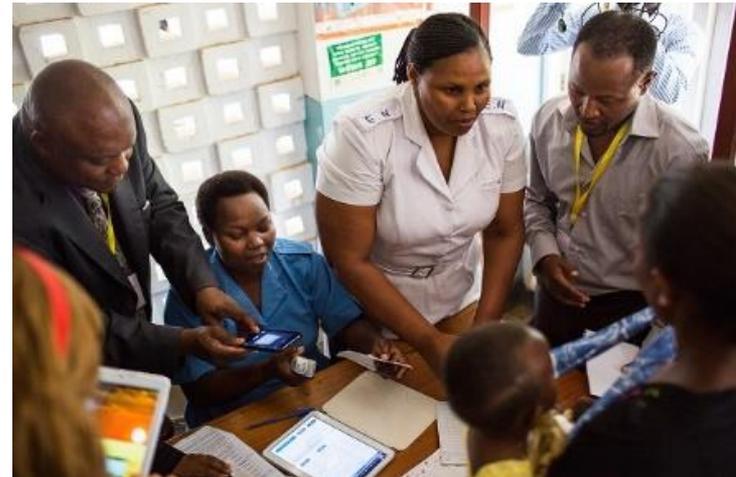

BID INITIATIVE

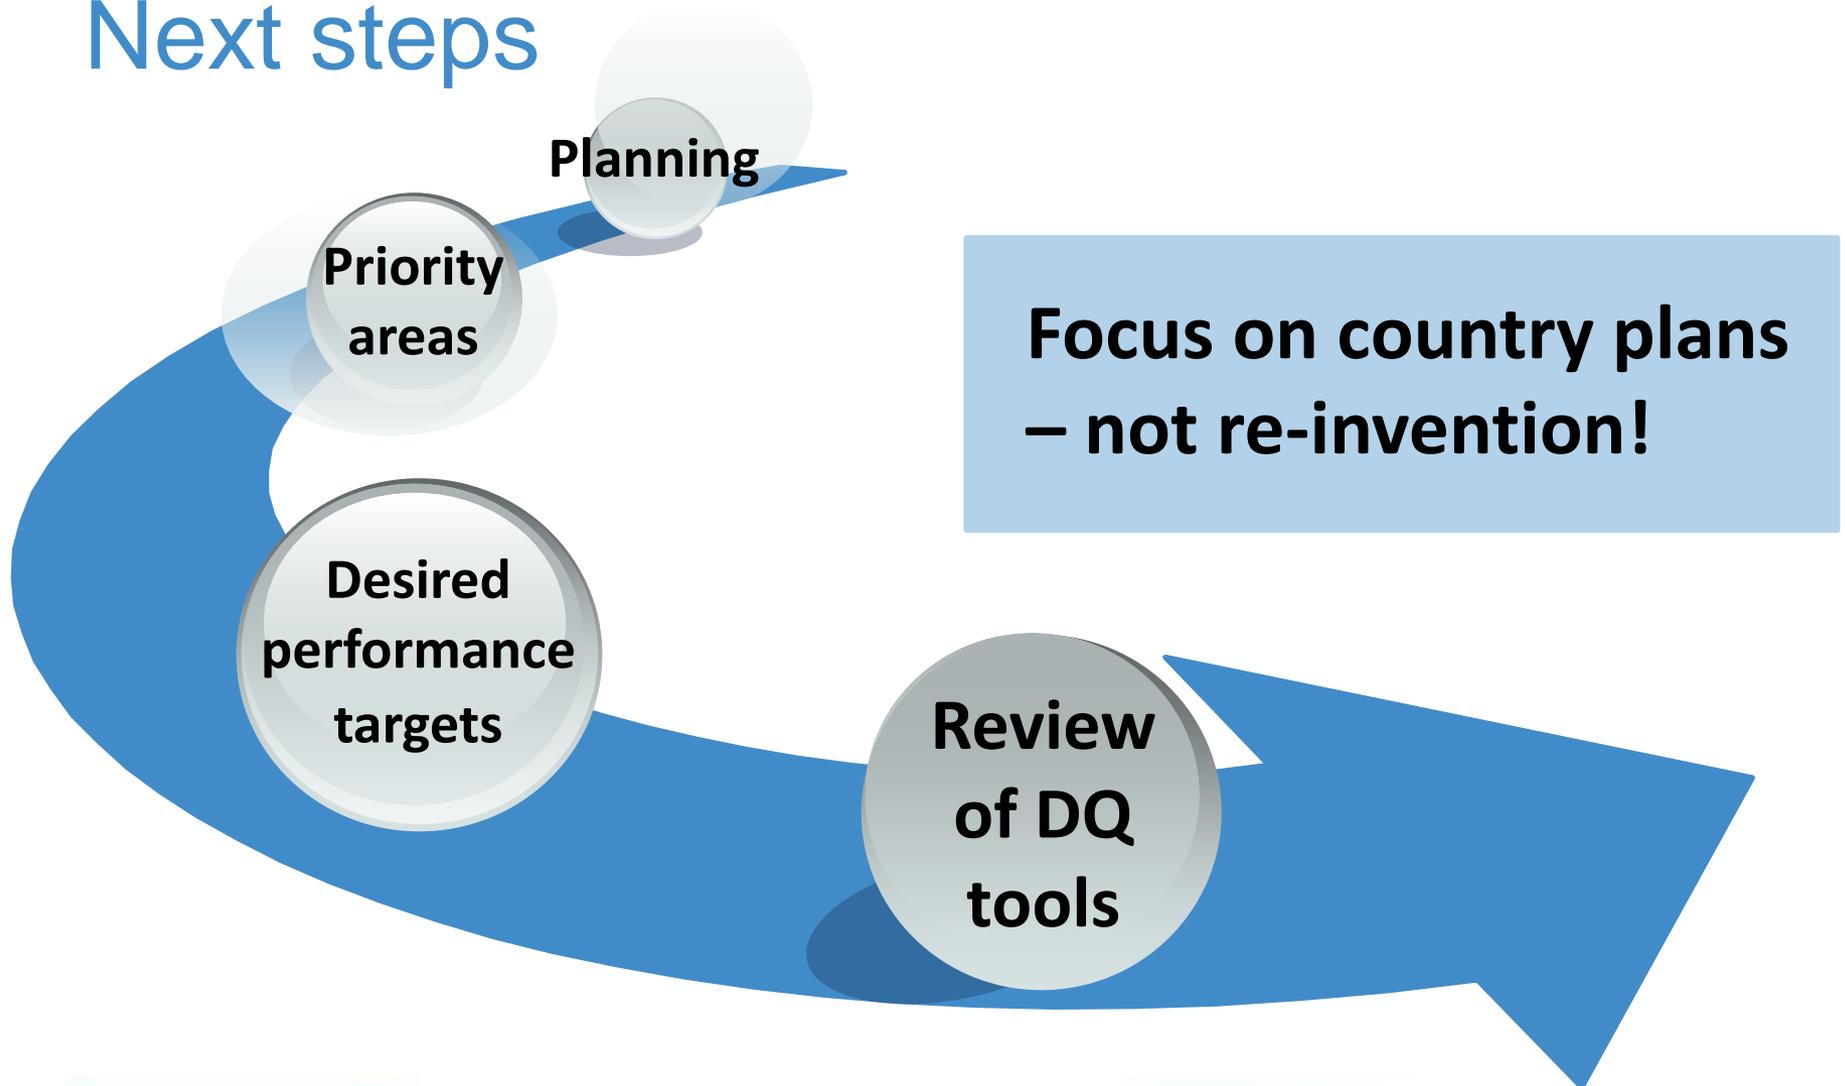

Better data. Better decisions. Better health.

General Activities

Next steps

BID INITIATIVE

Better data. Better decisions. Better health.

Any questions?

BID INITIATIVE

Better data. Better decisions. Better health.
