

**MINISTRY OF HEALTH AND CHILD CARE
VACCINATION CALENDAR**

Instruction: Use this tool to determine: (a) whether or not the child is of the correct age for the vaccine(s) today; (b) the return date for the next dose of the multi-dose primary series for Penta, PCV, OPV, and Rota vaccines.

Before vaccinating the child, inter-personal communication (IPC) is vital:

- ✓ Always welcome mother/caregiver and ask about general well-being of the family.
- ✓ Always ask if the child has any health problems now and also after previous vaccinations.
- ✓ Always counsel the mother on the importance of adhering to the vaccination schedule.

After vaccinating the child:

- ✓ Always tally on the tally form (T6) then document in the ZEPI register and child health card.
- ✓ Always inform caregiver that the child will have pain on injection site and may develop fever or (and) rash. Explain that this is usually a normal reaction to vaccines but they should return to the HFs/HW, if worried about child's condition.
- ✓ Always give date of next visit reflected to your right in the same column as 'date given' and document it on the child's health card.
- ✓ **Always quickly go through the card and educate the mother/caregiver on the importance of the Child Health Card and keeping it safe and that it will be a requirement for school entry.**
- ✓ Always ask the mother/caregiver if she has any questions about any health issues pertaining to immunisation and also her own health, before she leaves.
- ✓ Always thank mother/caregiver for bringing the child for vaccination.
