

WORKSHOP 8: SELECT POSTER HIGHLIGHTS

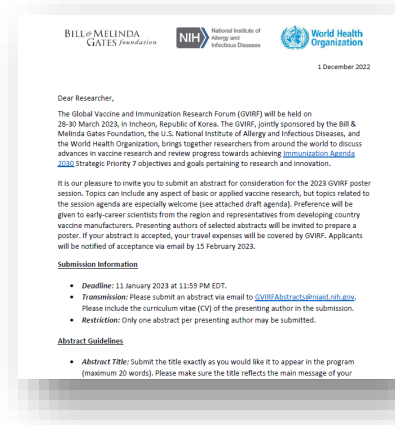

GVIRF, 30 March 2023

GVIRF POSTERS

Purpose:

To recognize and share high quality research in vaccines and immunization

1. Call for Abstracts

2. Shared through partner networks

3. Selected by a panel of scientists

67 Abstracts submitted

43 Posters invited

Based on scope, results, and relevance

8 Selected to present

Exceptional value and interest

OUR PRESENTERS TODAY

43. **Hitt Sharma, Serum Institute of India** – *Changing the HPV landscape with indigenous vaccine – CERVAVAC*
24. **Debasu Damtie Gella, U. Gondar** – *High prevalence of rotavirus infection among under five children despite a high rotavirus vaccination coverage in Ethiopia*
16. **Dal-Hee Min, Lemonex Inc.** – *Innovative DDS ‘DegradaBALL’ for mRNA vaccine against next pandemics: ‘100 days mission’*
32. **Mohammad Mamun Alam, ICDDR,B** – *Cross-neutralization of Influenza A by SARS-CoV-2 antibodies*
8. **Chul Kim, Progeneer Inc.** – *Nucleoprotein Antigen Adjuvanted with Liposomal Cholesterol-linked TLR7/8 Agonist Showed Protective Immunity in Influenza Mouse Model*
22. **Josphat Kiprop Kosgei, USAMRU** – *RV 460 Study: Comparative Adjuvant Study for HIV Env-C DNA and Protein Vaccines in Kenya*
20. **Timothy Chege, KEMRI Wellcome Trust** – *The landscape of infectious disease exposure over the past two decades in the Kenyan coast*
4. **Chang-Yuil Kang, Cellid** – *Polyvalent strategy to the development of broadly protective vaccines against COVID-19 subvariants*
