

Optimise Procurement Management in the Nutrition & Health Industry

Centralised and compliant supply chain that improves purchasing performance.

CHALLENGES

Fragmented communication and too much admin

Fragmented procurement across emails, calls, and messaging apps hinders communication, tracking, and decision-making. Complex workflows involving multiple departments increase manual errors, wasting \$1M-\$1.5M annually for a \$100M purchasing company.

HOW IT WORKS

Addressing procurement and supply chain challenges

Procurement faces challenges like managing suppliers and limited data for decisions. Private Portal helps with:

- ✓ **Supplier Management:** Full visibility on supplier relationships.
- ✓ **Supply Chain Visibility:** Better control over purchases.
- ✓ **Dashboards:** Data-driven insights to optimize spending.

BENEFITS

Around \$1.5M savings in performance improvement

Companies with \$50-\$100M in annual purchasing can save with Private Portal:

- ✓ **Market Intelligence:** Optimize spend, saving \$290K-\$350K.
- ✓ **Long-Tail Oversight:** Effectively manage 50% of your spend, leading to savings of \$350K-\$500K.
- ✓ **Compliance & Risk:** Digital audit trails save \$200K-\$240K.

"The **Kemiex Private Purchasing Portal** is helping our group companies to become more agile and scalable, while improving our supplier partnerships and client service level."
